## CALENDAR FOR 1921

### First Term

Monday, January 3 to Friday, February 25.

### Second Term

Monday, March 7 to Friday, April 29.

### Third Term

Monday, May 9 to Friday, July 1.

Grammar School Graduations — Thursday, June 23.

High School Graduation — Wednesday, June 29.

### Fourth Term

Wednesday, September 7 to Thursday, December 22.

### New Term

Tuesday, January 3, 1922.

Holidays — All Legal Holidays, Good Friday, June 17, and the remainder of the week from Wednesday noon next preceding Thanksgiving.

## MAYOR'S INAUGURAL ADDRESS

---

*Gentlemen of the City Council:*

We are assembled here this morning in accordance with our City Charter to take upon ourselves the obligations of our office and to assume the duties which we were elected to fulfil by the citizens of Quincy, you as Councilors for either one or two years, and I as Mayor for two years.

We have been especially honored, as we are the first governing body (with the exception of the School Board) to receive the suffrage of the women voters of this city. They, for the first time, have had an opportunity to express a preference, and the responsibility of helping them to justify their choice rests with and upon us.

We are beginning the fifth year by which the city has been governed under Plan A. Formerly by this plan, all the members of the City Council were elected at large.

Whether the change in Plan A, whereby six of the Councilors are elected each one by his respective ward, and three at large, will prove beneficial depends entirely upon your efforts and the character of your work.

You, gentlemen, as Councilors, represent the Legislative branch, and the Mayor the Executive branch of the city's governing and operating power.

While each body is separate and distinct, they must of necessity be in harmony with each other if the best and most economical results are to be obtained. Therefore, let each of us at the beginning of our fiscal year have a clear understanding of our city's financial condition, which I will outline as briefly as possible.

### CITY DEBT

The total bonded and municipal debt of the City of Quincy on January 1, 1920 was \$2,182,151.81. During the year this was reduced by payments as follows:

Payments on City Debts.....	\$209,000.00
Parks.....	2,000.00
Street Improvements.....	7,300.00
Sewer.....	72,700.00
Water.....	73,500.00
Refunding.....	15,000.00
Norfolk County Hospital.....	9,951.81
<hr/>	
Making a total payment of.....	\$389,451.81

New authorized debt in 1920 amounting to \$545,200.00 will increase the total City Debt as follows, namely, \$155,748.19, so that the total City

Debt on January 1, 1921, is \$2,337,900.00. Of this amount \$331,700.00 will mature in 1921, and must be borne as part of the tax levy or assessment for this year.

### BORROWING LIMIT

Our borrowing capacity is based on the Revised Laws, Chapter 27, Section 3, and limits us to an amount equal to  $2\frac{1}{2}$  per cent of the average assessed valuation (less abatements) of the previous three years, from which must be deducted the net ordinary outstanding debt.

The valuation for the year 1918 was .....	\$48,189,175.00
1919 .....	52,039,725.00
1920 .....	56,310,175.00
<hr/>	
This shows a total three years' valuation of .....	\$156,549,075.00
and the average for three years is .....	52,183,025.00
$2\frac{1}{2}\%$ of which is equal to .....	1,304,575.00
Less City Debt, Jan. 1, 1921, of .....	\$960,900.00
Less part of Sewer Debt, Jan. 1, 1921 of ....	177,000.00
	<hr/>
	1,137,900.00
<hr/>	
Our margin or regular borrowing limit Jan. 1, 1921 .....	\$166,675.00

### TAXES

Our tax rate for 1920 was based on a total budget appropriation of \$1,472,339.85. This, together with other municipal expenses on account of Special, State, County and other taxes, together with maturing City Debt, and other special matters, equalled a total expense of \$2,301,788.23, from which was deducted receipts or credits from the State on account of Polls, Income, and the item of Estimated Revenue making a deduction of \$401,945.53.

The net amount that was required for the operation of the City and to meet its expenses was \$1,899,842.70. Had the figures remained as quoted, then our tax rate, based on the valuation of \$56,493,150.00 as found by the Assessors of 1920, and the cost of operation,  $\$1,899,842.70 \div \$56,493,150.00$ , would have been \$33.64 per thousand for the year 1920.

The payment of \$80,763.27 which the United States Housing Corporation made on account of the utility work done by the City for their housing project at Quincy Point when applied to our total municipal operating expense, reduced it to a total amount of \$1,819,079.43 and resulted in a consequent reduction in the tax rate from \$33.64 to \$32.20 per thousand.

I have stated these facts very carefully because I want you, gentlemen, to be conversant with them and to fully realize that if we are to succeed in keeping our taxes at a lower rate, or even at the present rate, economy must be our watchword.

I would not, for one moment, have you infer that all operations and disbursements of money should cease, but any new projects affecting the expenditure of money should have our closest scrutiny and careful consideration. We should all try to feel as optimistic as possible, but our vision should not be so obscured that we overlook what of necessity must be hard, cold facts. Our sources of revenue, from which our taxes are derived, principally the building operations in our City, are somewhat at a standstill, and in determining our expenditures we must not overlook the fact that from this source we can expect but very little of a substantial increase. The average normal increase in past years has been from \$1,500,000.00 to \$2,000,000.00.

Furthermore, valuations that may be placed upon any new building operations must, on account of decreasing building costs, be at a lower level than those which the Assessors found on like operations in the year 1920.

Another decreased source of income or credit which we receive from the State will undoubtedly occur in our State Income Tax which in 1920 was approximately \$200,000.00. I feel that the reduction from this amount in the year 1921 will be at least 25 per cent.

Our greatest amount of Sewer and Water Debt matures in 1921 and 1922. After that there is, I am happy to say, a sharp decline.

For your convenience I have tabulated these statutory debts:

	<i>Sewer</i>	<i>Water</i>
Maturing in 1921	\$76,000.00	\$66,500.00
1922	67,000.00	61,500.00
1923	59,000.00	58,500.00
1924	40,000.00	25,500.00
1925	36,000.00	24,500.00

I am not going to burden you, gentlemen, with a great mass of data concerning the various departments of the City, but I should like to take this opportunity to touch upon a few of them briefly.

## DEPARTMENT OF THE COMMISSIONER OF PUBLIC WORKS

Through this department a great amount of money is spent for utility and maintenance work. I believe that with a better system of supervision and more careful application of strictly business and not political methods, far more satisfactory and economical results may be obtained. It will take a little time to bring about this change, but I shall strive earnestly to do it in the shortest possible time.

## STREETS

The care and upkeep of the streets is an important matter. For the large amount of money spent the citizens expect a return, and through the

Commissioner of this department I shall work earnestly to see that they get it.

I believe that with proper organization the City can be divided into districts, each district to be in charge of a foreman whose duty it shall be to patrol his particular section and keep it in repair by the filling, patching and cleaning of those streets that are allotted to him — this to be done not in an intermittent manner but in a regular and systematic way. In considering these statements due regard should be given to the rules and laws governing unaccepted streets.

### **NEW STREETS**

I am in accord with any policy that is practical that will continue the acceptance and building of new streets and the rebuilding of old streets, provided of course that it comes within the scope of our resources.

It is to be hoped that another special appropriation may be obtained for the purpose of continuing the rebuilding of Hancock Street. This is the main business thoroughfare entering Quincy, and its present condition at the northern end certainly reflects discredit upon our City.

We are apt to view its use and repair as a source of convenience for pleasure vehicles only, when as a matter of fact its repair and upkeep is a convenience and economy to the citizens, merchants and owners of commercial vehicles who do business in this City.

### **SEWERS AND DRAINS**

The City Engineer has prepared a comprehensive plan of the water sheds and drainage areas of the City, and it is to be hoped that any future appropriations and expenditures of moneys will be strictly in accord with the scheme and detail as laid down on this plan. No special building program has been mapped out for sewer construction but without doubt we shall be able to finance and build those which of necessity will be required.

### **WATER DEPARTMENT**

The large increase in water consumption in this City is not a cause for alarm, as the year 1920 will undoubtedly show a decrease per capita. I shall urge that every service be metered instead of leaving them as they are now. At present only about 90 per cent are metered. Even with the system fully metered, the best return that we may expect is about 75 to 80 per cent efficiency, as it has been found by actual tests that in water systems as old as the one in this City there is bound to be from 20 to 25 per cent leakage and loss unaccounted for.

The collection of outstanding water bills will receive immediate attention. On December 30th, 1920, they amounted to approximately \$12,620.12. Included in this amount are many disputed bills, and some

that are uncollectible. Those that are in dispute should be adjusted at once, and those that are uncollectible should be charged off. We have no right to misrepresent the facts to the citizens of Quincy, nor should we deceive them or ourselves by assuming that we possess assets that are uncollectible.

### DEPARTMENT OF HEALTH AND SANITATION

I am not satisfied that the best results are being obtained from this department in return for the money expended, but I do not care to make any criticism until I am more familiar with the facts.

I think it will be well at this time to suggest that some of the present methods of this department be changed. I recommend that the School Physicians be discontinued, unless required by law, as I am informed that the City is not receiving a sufficient return for the expenditure, or that it be arranged to have them devote a sufficient amount of their time to properly do this work. The City Physician should devote all his time to the City, and under his direction, through the Department of Health, there could be established a Health Center or directing source from which could operate a Child Welfare Nurse in addition to the regular Welfare Nurse, whose duties would apply to prenatal conditions as well as those existing after birth. I have laid special stress on this because our death rate for children up to one year old is the highest in the State, 90 deaths per thousand. (Latest data obtainable 1918 and I understand that it is now even higher.) The general average for the State is 84 per thousand. (Comparing five cities of equal population with Quincy.)

The Home Economics Instruction, if continued could come under the same department, as well as the Dental Clinic in operation at the Webster School, which is now maintained under the auspices, and at the expense of the Red Cross, and also the Dental Clinic at the Coddington School, which is now under the supervision of the School Board, or both Dental Clinics, could be turned over to the School Board.

I am informed that the equipment of the Clinic at the Webster School was paid for by the Red Cross, at an expense of approximately \$1000.00 and if it is taken over by any of the City departments for management, the Society should be reimbursed for at least part of their expense.

I am not fully satisfied with our present method of milk inspection, and shall suggest changes to bring it up to even a higher standard than now prevails. There are several branches of this department which I think could be speeded up, thereby obtaining more economical and efficient results.

### CITY HOSPITAL

You, gentlemen, are doubtless well aware that the City Hospital is now operated under the direction of a Committee appointed by the Mayor

and at the expense of the City, instead of by public and private subscriptions as was formerly the case.

The Committee is composed of men of high standing and integrity who serve without pay during their term of office. They have brought the Hospital up to a high standard of efficiency and service, and the Citizens of Quincy are to be congratulated on the results attained under the management of this Committee.

Briefly I desire to bring to your attention the cost of operating this institution for the year 1920:

Appropriations from City for 1920	\$38,500.00
Cash receipts from patients from Jan. 1, 1920, to Dec. 23, 1920, and interest on Endowment Funds, etc.	70,186.62
Total Receipts	<hr/> \$108,686.62
Less Expenditures from Jan. 1, 1920, to Dec. 23, 1920,	105,549.78
Credit Balance	<hr/> \$3,136.84
*Amount of unpaid bills due Hospital from patients for current year (approximately)	6,106.49
(*A certain percentage of these are uncollectible.)	
Number of patients treated from Jan. 1, 1920, to Dec. 23, 1920:	
Medical, 128 — Surgical, 1173 — Obstetrical, 302 —	Total, 1603

The urgent need of better facilities and larger quarters for properly caring for obstetrical cases is badly felt, and provision should be made for taking care of this class of patient at the earliest possible moment.

We do not like to speak of this branch of the Hospital's work in monetary values, but from lack of adequate accommodations a large source of revenue is lost each year, and from a humanitarian standpoint a certain amount of hardship is inflicted upon our citizens. As many as fourteen applications for entrance to the Hospital from this and other sources have been refused in a single day.

The need for new wards and a power plant and mechanical building is urgent and should have our immediate consideration. Much of the machinery and equipment is obsolete and must be replaced at once. A general scheme or plan has been drawn for a group of new buildings so arranged that they may be built on the unit basis. It is of paramount importance that the Power Plant Building and one of the new Ward Buildings be built at once. The construction of these buildings can be financed by special appropriation authorized under a statutory act, and outside of our borrowing limit.

### AUDITOR'S DEPARTMENT

I wish to commend this department to you as one of the most finely conducted departments of the City.

To facilitate the Auditor's work I shall insist that bills for the various

departments be rendered to him more promptly than has been the custom, in order that they may be properly audited and checked, thereby allowing the City to take advantage of a cash discount for prompt payment of the City's bills. I believe that if these discounts were taken at the proper time it would result in a saving of hundreds of dollars to the City.

### SCHOOLS

As Mayor of the City, which is governed under Plan A, by virtue of the office I become Chairman of the School Board. You, gentlemen, are well aware of the urgent need of either an addition to the present High School or the building of a new High School, and I do not care to enter into a discussion of the merits or demerits of what has already been done. I can only repeat to you, and to the citizens of Quincy, what I have already said, namely, that immediately upon assuming the Chairmanship of the School Board I am ready and willing to co-operate with them, as Mayor, in any way that will facilitate an immediate start being made on this much needed improvement. My only qualification of this statement is that in deciding upon an architect, and the type, arrangement of building, location, and so forth, the decision shall be such as will secure the most advantageous and economical results for all concerned.

I am also informed that conditions at the Massachusetts Fields School require immediate attention. This you will be advised about later.

The School Budget of the City has steadily increased each year. In the year 1920 it was approximately \$500,000.00. Owing to the increase in salaries of the teachers, and other matters, it will undoubtedly equal or exceed \$600,000.00 this year.

It is my privilege, as Chairman of the School Board, to examine each item of the School Budget, and I assure you, gentlemen, that it will have my closest scrutiny before it is presented to you. I firmly believe that with the prospect of a declining market, and sharper buying methods, some of the amounts annually asked for in this Budget can be reduced.

I believe that our schools are conducted in an efficient manner under the direction of the School Board, and that they have not only attained a high standard in the past, but are today maintaining the same degree of efficiency, and it will be an especial pleasure to me, as Chairman of the School Board, to help in continuing to maintain the standard which they have already set.

### PUBLIC AND MUNICIPAL BUILDINGS

A great many of these matters some of the older members of the Council are familiar with, but for the benefit of the new members I think it will be well to recite briefly some of the requirements of the City along this line.

*City Hall:* The urgent need for more room for the Departmental Heads and Officers of the City is apparent to all, and has been recommended

time and time again by previous Mayors. I can only add to what they have already said, and ask that you, gentlemen, co-operate with me in an effort to secure larger and more adequate quarters, either by building additions, or by alterations as required. We are not obtaining the highest efficiency from those employed by the City in their present quarters on account of the cramped and inconvenient conditions under which they are obliged to work.

*Police Station:* Any of one you gentlemen, or any citizen of this City, who has viewed our present police station will agree with me that it is a disgrace to our City. The present building is over ninety years old, and was originally built for a school-house. It was later used by the Fire Department, and in 1901 was fixed over for a temporary Police Station. At that time there were approximately a dozen men in the Police Department, now there are about sixty men who are forced by necessity to use this building. By a process of patching, alteration, and so forth, it has been kept going; but, from a sanitary and humanitarian standpoint, it should have been condemned years ago. I urge prompt action in relieving this condition as it now exists.

*Municipal Garage:* The need of a municipal or central garage for the housing and care of the City's automobiles requires no explanation on my part. To buy expensive automobiles, and pieces of machinery used in connection with them, and so forth, and then allow them to stand without proper housing or shelter, where they rapidly deteriorate, is a wasteful expenditure, and no sane business man, in the conduct of his own business, would permit such wasteful methods.

*Convenience or Comfort Stations:* The necessity for the immediate construction of at least two convenience stations is apparent to all who have given this matter any thought, and those who are inclined to overlook the facts have had them brought forcibly to their attention by acts that have been committed in and about our streets on account of lack of proper accommodations having been provided. I recommend that one convenience station be constructed in or near City Square and the other at Hough's Neck. This is a subject that the Planning Board should study if they have not already done so, and I shall confer with them at once relative to this matter.

## DEPARTMENT OF PUBLIC BURIAL PLACES

The Commissioner of this Department has repeatedly asked that additional land be bought for the enlargement of Mount Wollaston Cemetery, and I trust that when definite plans are presented to you relative to this matter they will have your careful consideration.

## OTHER DEPARTMENTS

There are several of the Departments to which I have made no specific reference or recommendation, particularly the Department of the Overseer

of the Poor, the Police and Fire Departments, the offices of the City Clerk and Treasurer, the Assessors' and Tax Collector's Office, the Departments of Building Inspection, Sealer of Weights and Measures, the Planning Board, Board of Survey, Public Library, etc.

While I am more or less familiar with the operation of these departments and offices, I feel that I should make a more thorough study of them before I offer any suggestions or recommendations for their future conduct.

In conclusion I want to say to you, gentlemen, that, other opinions to the contrary, I feel that the affairs and management of this City can be conducted in the same efficient and economical way that a private business or corporation is managed, and that if anyone employed by the City is under the impression that he is privileged as a City employee to spend the City's time or money without giving a return equivalent to the expenditure involved, he is laboring under a delusion that will be very quickly dispelled.

Personally I cannot allow this opportunity to pass without thanking the citizens of Quincy for the honor that they have conferred upon me, and I shall work earnestly to merit the confidence and trust that they have placed in me.

I ask at this time that we be granted knowledge, strength, and power to execute in an impartial manner, and by efficient and economical methods, the affairs of the City entrusted to our care.

I ask of the citizens that they give us their co-operation and support, as well as their advice and constructive criticism, that we may all work together for the good of the City of Quincy.

## AUDITOR'S REPORT

---

Quincy, Mass., March 1, 1921.

*To the City Councillors, Quincy, Mass.*

In accordance with the ordinance of the city, I submit the annual report of my department, showing in detail the receipts and expenditures of each department.

The several trust funds of the city have been duly audited and found correct.

Also several statements showing the financial condition of the city at the close of the financial year, December 31, 1920.

HENRY O. FAIRBANKS, *City Auditor.*

## CITY OF QUINCY IN COUNCIL

No. 36

Ordered:

March 1, 1920.

That the several sums named herein be and are hereby appropriated for the payment of the expenses of the City of Quincy for the financial year beginning January 1, 1920 and ending December 31, 1920, to be expended by and under the direction of the several officers or boards as herein designated, in accordance with the provisions of Chapter 719, of the Acts of 1913.

That the appropriation for Water Maintenance and Clerical be paid from the Water Receipts.

That the appropriation for Sewer Maintenance and Clerical be paid from Sewer Assessment Receipts.

**Mayor**

Safford Street . . . . .	\$6,500 .00	
Vassall Street . . . . .	4,000 .00	
Adams Street, Widening . . . . .	10,000 .00	
Hancock Street . . . . .	3,600 .00	
Playground, Ward 6 . . . . .	6,000 .00	
Sewer Construction . . . . .	60,000 .00	
Memorial Hall . . . . .	250,000 .00	
	<hr/>	\$545,200 .00

Total authorized Debt . . . . . \$2,337,900 .00

The following loans have not been issued:

Playground . . . . .	6,000 .00	
Memorial Hall . . . . .	250,000 .00	
Permanent Sidewalks . . . . .	15,000 .00	
Safford Street . . . . .	4,000 .00	
Adams Street, Widening . . . . .	10,000 .00	
Vassall . . . . .	4,000 .00	
Bellevue . . . . .	10,000 .00	
High School Plans . . . . .	15,000 .00	
	<hr/>	314,000 .00

Total authorized Debt is as follows:

City Debt . . . . .	960,900 .00	
Parks . . . . .	6,000 .00	
Street Improvement . . . . .	20,000 .00	
Sewer . . . . .	635,500 .00	
Water . . . . .	359,500 .00	
Refunding . . . . .	30,000 .00	
Norfolk County Hospital . . . . .	76,000 .00	
Memorial Hall . . . . .	250,000 .00	
	<hr/>	2,337,900 .00

The general Debt divided as follows:

Schools . . . . .	\$246,000 .00	
Highway . . . . .	599,900 .00	
Fire Apparatus . . . . .	12,000 .00	
City Hospital . . . . .	53,000 .00	
Board of Health Emergency . . . . .	44,000 .00	
Playground . . . . .	6,000 .00	
	<hr/>	960,900 .00

# REPORT OF THE CITY SOLICITOR

---

January 3, 1921.

Hon. William A. Bradford, Mayor,  
Quincy, Massachusetts.

*Dear Sir:*— I herewith submit my report as City Solicitor for the year 1920.

## LEGISLATIVE WORK.

At the request of the Mayor I prepared a petition for the establishing of a Board of License Commissioners in the City of Quincy. I appeared in support of the bill at the various hearings before the Committee of the Legislature, and the bill accompanying the petition was enacted as Chapter 70, Acts of 1920.

### Chapter 70.

#### AN ACT ESTABLISHING A BOARD OF LICENSE COMMISSIONERS IN THE CITY OF QUINCY.

Be it enacted, etc., as follows:

SECTION 1. There is hereby established in the city of Quincy a board of license commissioners to consist of the city clerk of the city and the chiefs of the police and fire departments, all of whom shall serve without extra compensation.

SECTION 2. All authority to grant licenses and permits, and, except as hereinafter provided, to suspend and revoke the same, now or hereafter vested by law in the mayor and city council of said city or in the mayors and city councils and boards of aldermen of cities of the commonwealth, except the authority to grant licenses for the sale and transportation of intoxicating liquors and permits to public service corporations for locations in the streets and ways of the city for any purpose, shall hereafter be exercised exclusively by said board of license commissioners; provided, that nothing herein shall affect the authority of the director of the division of fire prevention of the department of public safety succeeding to the powers of the fire prevention commissioner for the metropolitan district.

SECTION 3. A person whose license is revoked by said board of license commissioners may appeal to the city council of said city by filing said appeal in writing with the clerk of the city council within seven days after such revocation. The action of the city council confirming or vacating such revocation shall be final.

SECTION 4. The city council of said city shall retain all authority which it now possesses or which is hereafter granted to it, or to cities generally, to establish ordinances relating to the manner in which the holder of any such license or permit may exercise the rights granted thereunder. The board of license commissioners shall not establish any rules or regulations relating to licenses or permits inconsistent with the provisions of any law of the commonwealth or any ordinance of the city of Quincy.

SECTION 5. This act shall take effect upon its acceptance by vote of the city council of the city of Quincy, subject to the provisions of its charter; provided, that such acceptance occurs prior to the thirty-first day of December in the current year. For the purposes of such acceptance, this act shall take effect upon its passage. (Approved Feb. 26, 1920.)

Early in the session of the Legislature of 1919 a hearing was held on a petition to amend the city charter of the City of Quincy. I attended the hearings of the Legislature Committees having to do with the matter, and opposed the city charter being amended as prayed for in the petition, because of vagueness and uncertainty as to what would be the effect of enacting the bill accompanying the petition. At the request of the chairman of the Committee having the matter in charge, I prepared a bill which was subsequently enacted as Chapter 195, amending the city charter so as to provide for ward representation in the City Council.

### Chapter 195

#### AN ACT RELATIVE TO THE CITY COUNCIL OF THE CITY OF QUINCY.

Be it enacted, etc., as follows:

SECTION 1. The city council of the City of Quincy shall, except as hereinafter provided, be composed of nine members, of whom one shall be elected by and from the qualified voters of each ward, and three shall be elected by and from the qualified voters of the whole city. At the first municipal election held after the acceptance of this act the councillors elected from each ward shall be elected to serve for one year, and those elected at large shall be elected to serve for two years, from the first Monday in January following their election and until their successors are elected and qualified; and at each annual city election thereafter the councillors elected to fill vacancies caused by the expiration of terms shall be elected to serve for two years. Whenever the number of wards of the city is increased, the number of members of the city council shall be correspondingly increased, and at the first municipal election after the creation of a new ward a councillor shall be elected by and from the qualified voters of the new ward, to serve for two years from the first Monday in January following his election. Whenever by reason of an increase in the number of wards the number of members of the city council would be increased to an even number, an additional councillor shall be elected at large by and from the qualified voters of the city to serve for two years from the first Monday of the following January.

SECTION 2. The term of office of the members of the city council in office at the time of the acceptance of this act shall expire on the first Monday in January following said acceptance.

SECTION 3. Section five of Part II of chapter two hundred and sixty seven of the General Acts of nineteen hundred and fifteen, relating to Plan A, in so far as it is inconsistent with the provisions of this act shall not apply to the city of Quincy: provided, however, that except as changed by this act, the form of municipal government now in force in said city and the special laws relating thereto shall continue in force until amended or repealed.

SECTION 4. This act shall be submitted to the registered voters of the city of Quincy at the next state election and shall take effect upon its acceptance by a majority of the voters voting thereon. The act shall be submitted in the form of the following question to be placed upon the ballot.

"Shall an act of the general court, passed in the current	Yes
year relative to ward representation in the city council of	...
the city of Quincy be accepted?	No

(Approved March 24, 1920.)

On March 31, 1920, an act was approved providing for a session of the superior court, city of Quincy, for naturalization purposes.

**Chapter 232****AN ACT RELATIVE TO SESSIONS OF THE SUPERIOR COURT IN THE CITY OF QUINCY FOR NATURALIZATION PURPOSES.**

Be it enacted, etc., as follows:

For purposes of naturalization there may hereafter be held in the city of Quincy a session of the superior court in the month of February and in the month of July upon such dates as may be fixed by the chief justice of the court. (Approved March 31, 1920.)

The city petitioned the Legislature for authority to appropriate money for a memorial to suitably commemorate the services of Quincy men who served the United States in its Army and Navy in the recent World War. Hearings were held before the legislative committees, and the following General Acts, applicable to all cities and towns in Massachusetts, were enacted.

**Chapter 254****AN ACT TO AUTHORIZE CITIES AND TOWNS TO APPROPRIATE MONEY TO PROVIDE SUITABLE HEADQUARTERS FOR POSTS OF THE AMERICAN LEGION.**

Be it enacted, etc., as follows:

SECTION 1. For the purpose of providing suitable headquarters for posts of the American Legion, cities and towns may rent or lease buildings, or parts of buildings, for periods not exceeding five years, and for this purpose may appropriate annually amounts not exceeding the following sums, as determined by their respective taxable valuation:—

Valuation of less than \$5,000,000.....	\$1,000
Valuation of \$5,000,000 but not exceeding \$20,000,000.....	1,500
Valuation of \$20,000,000 but not exceeding \$75,000,000.....	2,000
Valuation of \$75,000,000 but not exceeding \$150,000,000.....	2,500
Valuation of \$150,000,000 or more, \$2,500 for each \$150,000,000 of valuation, or fraction thereof.	

SECTION 2. Buildings, or parts of buildings, rented or leased for the purpose aforesaid may be under the direction and control of the said posts, subject, however, to such rules and regulations as may be fixed from time to time, in cities by the mayor with the approval of the council, and in towns by vote of the town. (Approved April 6, 1920.)

**Chapter 292****AN ACT AUTHORIZING CITIES AND TOWNS TO APPROPRIATE MONEY FOR MEMORIALS TO SOLDIERS, SAILORS AND MARINES.**

Whereas, It is desirable for the public interest that this act take effect immediately, therefore it is hereby declared to be an emergency law necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

SECTION 1. Chapter sixty-one of the General Acts of nineteen hundred and nineteen is hereby amended by striking out section one and substituting the following:—SECTION 1. For the purpose of properly commemorating the services and sacrifices of the soldiers, sailors and marines who have served the country in war, cities and towns may accept gifts or bequests and may appropriate money for the acquisition of land by purchase or by right

of eminent domain, or for the purchase, erection and equipping of buildings, or for the construction of other suitable memorials. If land is taken by right of eminent domain, compensation shall be awarded and paid in the same manner as for highway takings. To meet the cost of maintaining such memorials, cities and towns may raise by taxation such sums as may be deemed necessary.

SECTION 2. Said chapter sixty-one is hereby further amended by striking out section two and substituting the following:—SECTION 2. To provide the necessary funds for the acquisition of land, or for the construction of buildings or other structures, including the cost of original equipment, a city or town may borrow, outside the statutory limit of indebtedness, an amount not exceeding one-half of one per cent of its assessed valuation for the preceding year, and may issue bonds or notes, payable in not more than twenty years, in accordance with section fourteen of chapter seven hundred and nineteen of the acts of nineteen hundred and thirteen.

SECTION 3. Said chapter sixty-one is hereby further amended by striking out section three and substituting the following:—SECTION 3. Cities and towns which accept gifts or bequests or appropriate money for the purposes set forth in this act may provide for a board of trustees which shall have charge and control of the construction of any memorial hereunder, and shall have the custody and care of any such memorial after its construction. Such boards shall have full power to make such rules and regulations from time to time relative to the use of said buildings as they may deem necessary. In cities such a board shall consist of the mayor, ex officio, and five members appointed by him and approved by the council, two of whom shall not be veterans of any war. Two of said board shall be appointed for a term of one year, two for two years, and one for three years and as the term of each member expires, a successor shall be appointed in like manner for a term of three years. Any vacancy shall be filled for the unexpired term in like manner. In towns such a board shall consist of the chairman of the board of selectmen, ex officio, and five members elected by the town, in the same manner as other town officers, two of whom shall not be veterans of any war. Two of said board shall be elected for a term of one year, two for two years, and one for three years, and as the term of each member expires, a successor shall be elected in like manner for a term of three years. Until the board is elected, the selectmen may appoint a temporary board to serve until the next annual town election. Any vacancy occurring in a town board shall be filled for the unexpired term by the remaining members. All members of said boards shall continue to serve until the qualification of their respective successors. (Approved April 9, 1920.)

### Chapter 528

#### AN ACT AUTHORIZING CITIES AND TOWNS TO MAKE APPROPRIATIONS FOR ERECTING HEADSTONES OR OTHER MONUMENTS AT THE GRAVES OF PERSONS WHO SERVED IN THE WORLD WAR.

Whereas, The deferred operation of this act would be inconsistent with the duty the public owes to the veterans of the world war, therefore, it is hereby declared to be an emergency law necessary for the immediate preservation of the public convenience.

Be it enacted, etc., as follows:

Paragraph thirteen of section fifteen of chapter twenty-five of the Revised Laws, as amended by section one of chapter ninety of the acts of nineteen hundred and ten, is hereby further amended by inserting after

the word "war," in the sixth and tenth lines, the words:— or in the world war,— so as to read as follows:— For erecting headstones or other monuments at the graves of persons who served in the war of the revolution, the war of eighteen hundred and twelve, the Seminole war, the Mexican war or the war of the rebellion, or who served in the military or naval service of the United States in the Spanish-American war, or in the world war; for erecting or dedicating monuments in memory of soldiers who died in the service of the country in the war of the rebellion, or of soldiers or sailors who died in the service of the United States in the Spanish-American war, or in the world war; and for keeping in repair or decorating graves, monuments or other memorials erected to the memory of soldiers and sailors who served the United States, or to the memory of its firemen who died from injuries received in the performance of their duties in the fire service, or for other memorial observances in their honor. Money appropriated in honor of such firemen may be paid over to, and expended for such purpose by, any veteran firemen's association or similar organization. (Approved May 27, 1920.)

The city petitioned the Legislature for authority to incur indebtedness for the construction and furnishing of school buildings and a hospital, which resulted in Chapter 526 of the Acts of 1920 being enacted.

### Chapter 526

AN ACT TO AUTHORIZE THE CITY OF QUINCY TO INCUR INDEBTEDNESS FOR CONSTRUCTING AND FURNISHING SCHOOL BUILDINGS AND A HOSPITAL.

Be it enacted, etc., as follows:

SECTION 1. The City of Quincy, for the purpose of acquiring land, and of constructing, furnishing and equipping school buildings and a hospital thereon, or of constructing, furnishing and equipping additions to school buildings which increase the floor space, may borrow, outside the statutory limit of indebtedness, a sum not exceeding one million two hundred thousand dollars, of which an amount not more than one million may be appropriated for acquiring land for, and constructing, equipping and furnishing a high school. For the purposes aforesaid the city may issue bonds or notes to be denominated, Quincy School Loan, Act of 1920, and to bear such rates of interest as may be fixed by the city treasurer, with the approval of the mayor. Such bonds or notes shall be issued in compliance with chapter seven hundred and nineteen of the acts of nineteen hundred and thirteen and the amendments thereof. Each authorized issue shall constitute a separate loan, and any premiums received on the said loans shall be used as provided by general law.

SECTION 2. This act shall take effect upon its passage. (Approved May 27, 1920.)

The following cases against the City pending in the Superior Court January, 1920, were disposed of during the year:

In the case of Flaherty vs. Quincy, for personal injuries sustained by the plaintiff on account of falling into a sewer trench while the city employes were laying some sewer pipes on one of the streets in West Quincy, the plaintiff's exceptions to the verdict ordered in behalf of the city by the court were dismissed for want of prosecution.

Bessie Jaffe vs. Quincy. This was an action for assessment of damages for the taking of property in connection with the widening of Washington Street.

Laban Pratt vs. Quincy. An action for damages on account of the taking of land on Washington Street in connection with the public library.

Henry Wheeler vs. Quincy. An appeal from tax assessment.

The cases of Eugene R. Stone and Alfred Hemenway vs. City of Quincy, for damages arising out of the widening of Washington Street, were by agreement with the parties thereto referred to Mr. Herbert T. Whitman as Referee, his decision to be binding upon the parties.

During the year several new suits have been brought against the City for damages, personal injuries and property; many minor claims were brought against the City which were settled without litigation.

During the year when requested I have attended sessions of the City Council and advised it as to matters pending before it. I have also advised His Honor, the Mayor, and the several administrative departments from time to time when requested as to matters affecting the City and connected with said departments.

Very truly yours,

JOHN W. McANARNEY,  
*City Solicitor.*

# REPORT OF CITY TREASURER FOR 1920

---

January 1, 1921.

Hon. William A. Bradford, Mayor,  
Quincy, Massachusetts.

*Dear Sir:* I herewith submit the annual report of the City Treasurer for the year ending December 31, 1920. I remain,

Very respectfully yours,

WALTER E. PIPER, *City Treasurer.*

Lights reported out, Electric . . . . .	2533
Gas . . . . .	157

### Conclusion

The year 1920 has been a very busy term for this department, but the absence of serious crime was very noticeable in our city, while serious epidemics of crime were causing much anxiety throughout New England. To our loyal department members is due great credit for this condition and, though several attempts at serious crime were made, the offenders were apprehended. As a result, several members were credited with meritorious marks which will later be of value to the ambitious and deserving officer.

I have several suggestions in mind in my effort to keep our department's efficiency above criticism, chief of which is the absolute necessity of larger, and more central headquarters. At the present time there appears to be earnest agitation toward securing a suitable station.

Records show a splendid reward for our efforts in regulating traffic conditions, and the addition of another motorcycle, for our heavy automobile traffic in mid-summer and early fall, is recommended.

When my duties as Chief of Police began, I endeavored to convince the policemen that the most efficient work that they could do would be expected always. I asked them to realize that when the time came that record of ability, of zeal, of devotion to duty, and of results accomplished, and nothing else, would help them to advancement.

I believe such advice was accepted in the spirit given, and I take pleasure in thanking the members of the force for the able support rendered. It is also my pleasure to thank, at this time, the various City Officials with whom my duties have brought me in contact. Particularly, to the Judges and attaches of the court, to the City Clerk and assistant, to the City Auditor, and to the City Treasurer do I express grateful appreciation. Also to the members of the Press is due my thanks for their fairness in reporting matters pertaining to this department.

Respectfully submitted,

ALFRED W. GOODHUE, *Chief of Police.*

# PUBLIC BURIAL PLACES

# REPORT OF CITY PHYSICIAN

---

January 1, 1921.

Hon. William A. Bradford, Mayor,  
City of Quincy, Mass.

*Dear Sir:* As City Physician, I respectfully submit the following report of my services for the year ending December 31, 1920.

Visits to the Outside Poor . . . . .	122
Visits to the office . . . . .	26
Visits to the Almshouse . . . . .	19
Visits to the Police Station . . . . .	13
Vaccinations . . . . .	10
Attendance in Childbirth . . . . .	4
Visits for the Health Department . . . . .	15

I have also acted in an advisory capacity to the Health Department. This work has consisted mostly of consultations and investigations; ascertaining causes of death, diagnosing contagious diseases and examining patients.

Yours respectfully,

THOMAS J. DION, M.D.  
*City Physician.*

# REPORT OF OVERSEER OF POOR

Quincy, Mass., January 1, 1921.

*To His Honor the Mayor of the City of Quincy:*

The Overseer of the Poor, in compliance with the city ordinances, respectfully submits his report for the year ending December 31, 1920.

The Department has aided 225 cases on Outside Poor, many of these being temporary cases but included are our children's cases. This aid is, in our opinion, well expended for constructive and permanent work.

We have aided 47 families under the Mothers' Aid Law and have had three applications which we have investigated and found that they were not eligible for aid. We have closed 12 cases, which have been aided under this act.

We have had 74 cases referred to this department by the Police Dept., Probation Office, and various other sources. These we have investigated and found that some cases should be prosecuted for neglect, which has been done, and 33 of these we have referred to various private agencies.

We appreciate the co-operation of the Associated Charities and various societies which have helped us in our work.

A detailed report of the cost of the department will be found in the following statement.

The following is the financial statement for the year 1920:

## Appropriations:

Office .....	\$200.00	
Telephone .....	90.00	
Sundry expenses .....	100.00	
Almshouse .....	7,500.00	
Mothers' Aid .....	32,000.00	
Outside Poor .....	15,000.00	
Quincy Hospital .....	2,000.00	
		\$56,890.00

## Balance from 1919:

Office .....	107.17	
Johnson Fund .....	91.01	
		198.18

## Transfers:

Mothers' Aid to Outside Poor . . .	\$1,671.53
Office to telephone .....	13.21

## Expended:

Office .....	\$200.00	
Telephone .....	103.21	
Sundry expenses .....	90.38	
Almshouse .....	7,441.13	
Mothers' Aid .....	28,404.19	
Outside Poor .....	16,671.53	
Quincy Hospital .....	1,835.38	\$54,745.82

## APPARATUS

### Central Station

One steam fire engine with tractor; one auto combination ladder truck; one auto combination pumping engine; one auto combination hose truck; one auto combination hose truck (in reserve); one Chief's car.

**Wollaston Station**

One auto combination ladder truck; one auto combination hose truck.

**Atlantic Station**

One auto combination pumping engine.

**Quincy Point Station**

One auto combination pumping engine.

**West Quincy Station**

One auto combination ladder truck; one auto combination hose truck.

**Houghs Neck Station**

One auto combination hose truck.

**Fire Alarm**

One Dodge truck.

**FIRE ALARMS**

During the year there have been 379 alarms.

Bell alarms, 147.

Still and telephone, 232.

False, 39.

The Central Station apparatus responded to 227 alarms.

The Wollaston Station apparatus responded to 102 alarms.

The Atlantic Station apparatus responded to 90 alarms.

The Quincy Point Station apparatus responded to 64 alarms.

The West Quincy Station apparatus responded to 61 alarms.

The Houghs Neck Station apparatus responded to 18 alarms.

Total number of feet of hose laid, 40,300.

Total number of feet of ladders raised, 2,470.

Total number of gallons of chemicals used, 3,175.

Hydrants in use 49 hours, 30 minutes.

Time absent from quarters 311 hours.

**PERMITS**

Permits are issued from this office, including permits for out of door fires, blasting permits, gasoline permits, permits for the transporting and storing of powder and dynamite, fire works permits; all garage licenses must have the approval of the Head of the Fire Department before the license goes into effect.

**INSPECTIONS**

Inspections of cellars, yards, buildings and garages are made by the Chief and men of the department. All complaints received in relation to fire hazards and garages are investigated by the Chief.

**VALUATIONS, INSURANCES AND LOSSES**

Value of property involved.....	\$1,562,037.00
Insurance on same.....	722,725.00
Loss insured and uninsured.....	86,477.69

**Fire Losses for Year 1920**

<i>Month</i>	<i>Buildings</i>	<i>Contents</i>	<i>Total Losses</i>
January . . . . .	\$5,733.50 . . . . .	\$3,102.00 . . . . .	\$8,835.50
February . . . . .	2,719.00 . . . . .	3,492.94 . . . . .	6,211.94
March . . . . .	1,300.00 . . . . .	35.00 . . . . .	1,335.00
April . . . . .	5,191.00 . . . . .	1,260.25 . . . . .	6,451.25
May . . . . .	775.00 . . . . .	843.00 . . . . .	1,618.00
June . . . . .	385.00 . . . . .	675.00 . . . . .	1,060.00
July . . . . .	465.00 . . . . .	312.00 . . . . .	777.00
August . . . . .	420.00 . . . . .	75.00 . . . . .	495.00
September . . . . .	27,925.00 . . . . .	11,325.00 . . . . .	39,250.00
October . . . . .	8,089.00 . . . . .	2,886.00 . . . . .	10,975.00
November . . . . .	6,650.00 . . . . .	1,963.00 . . . . .	8,613.00
December . . . . .	684.00 . . . . .	172.00 . . . . .	856.00
Grand totals	\$60,336.50	\$26,141.19	\$86,477.69

The fire losses for the past year have been reduced to the amount of \$24,992.91 from that of year 1919.

The number of alarms reduced by 100.

The two platoon system which has been in effect since February 2, 1920, has been a good thing for the department, it has made it more efficient. Ten new lieutenants have been appointed during the year which also has added to the efficiency and discipline of the department.

We have lost one member of our department through death and another man has been appointed to fill his place.

**FIRE ALARMS**

This branch of the department is a most important one and needs a lot of attention.

The past year there has been a fire alarm box put in every school building in the city and it is my intention to install more boxes this year where they are needed. We must run several miles of new wire this year to take the place of the old.

About 3000 feet of underground cable has been installed the past year. We also have added to this department a Dodge one-half ton truck.

**RECOMMENDATIONS**

I would recommend the appointment of two Deputy Chiefs for this department, one for each Platoon and to abolish the present board of District Engineers.

I also recommend that two more permanent men be added to this department so that I may have two men to do inspecting of rubbish and all other fire hazards, and they make their report to headquarters every day. I think this very important and would be the means of preventing many fires.

I would recommend that an automobile aerial ladder truck with 75-foot aerial be purchased for Central Station and the present truck be transferred to Wollaston Station and the Wollaston truck put in reserve or be sold.

In conclusion I wish to extend my sincere thanks to the men in this department for their good work done during the past year. Also to all others who in any way have helped me in the discharge of my duties.

Respectfully submitted,

ALFRED L. MEAD, *Chief of Fire Department.*

# REPORT OF CITY CLERK

---

I have the honor to submit the thirty-second report for this department, being for the year ending December 31, 1920.

## RECEIPTS

Junk Licenses.....	\$380.00
Amusement Licenses.....	628.00
Common Victualers Licenses.....	370.00
Express and Carriage Licenses.....	88.00
Pool and Billiard Licenses.....	945.00
Auctioneer Licenses.....	20.00
All other Licenses.....	1,848.50
Marriage Permits.....	587.00
Recording and Special.....	583.75
Dog License Fees.....	203.20
	<hr/>
	\$5,653.45

The above sum has been paid to the City Treasurer.

Number of marriage intentions recorded in 1920.....	601
Number of marriages recorded in 1920.....	603
Number of births recorded in 1920.....	1233
Number of deaths recorded in 1920.....	604

The number of dogs licensed in 1920 was 869 male and spayed, 143 female and 4 kennels, for which the sum of \$2,578.00 was received. Of this amount \$2,374.80 was paid to the County Treasurer and \$203.20 to the City Treasurer.

Annexed are lists of births, marriages and deaths recorded in Quincy in 1920 and the election returns for 1920.

EMERY L. CRANE, *City Clerk.*

# ASSESSORS' REPORT

Quincy, Mass., January 1, 1921.

To His Honor, the Mayor, and the City Council:

*Gentlemen:* The following is respectfully submitted as the report of the Assessing Department for the year 1920.

## Valuation

The valuation of the city April 1, 1920, as determined by the assessors, follows:

Value of land.....	\$18,270,125.00	
Value of buildings.....	31,654,325.00	
Total.....		\$49,924,450.00
Valuation of personal property other than bank stock separately assessed.....	\$6,568,700.00	
Valuation of National Banks located in and taxable in the City of Quincy.....	84,455.00	
		<u>6,653,155.00</u>
Total valuation of the city as determined April 1, 1920.....		\$56,577,605.00
Amount to be raised by taxation.....	\$1,472,339.85	
Tax rate.....	32.20	
The valuation was also increased by omitted assessments levied in December, 1920...		8,575.00
The total valuation of the city upon which all taxes were assessed for the year 1920, when all assessments had been made....		<u>\$56,586,180.00</u>

## Valuation by Wards

(Not including valuation of bank stock)

	<i>Personal</i>	<i>Real Estate</i>	<i>Total</i>
Ward 1.....	\$2,651,625.00	\$13,416,725.00	\$16,069,350.00
Ward 2.....	1,438,100.00	10,028,950.00	11,467,050.00
Ward 3.....	495,275.00	4,732,675.00	5,227,950.00
Ward 4.....	268,650.00	3,028,600.00	3,297,250.00
Ward 5.....	1,024,750.00	11,261,675.00	12,286,425.00
Ward 6.....	690,300.00	7,455,825.00	8,146,125.00
	<u>\$6,568,700.00</u>	<u>\$49,924,450.00</u>	<u>\$56,493,150.00</u>

The polls returned by the assistant assessors, and those registered for the year amounted to 15,103.

The assistant assessors who served during the year were: Ward 1, Frank O'Rourke and Miledge LeCain; Ward 2, Ralph Ford, and William Sullivan; Ward 3, Henry Tilden, and Timothy Ford; Ward 4, Joseph Garrity; Ward 5, George A. Shortle, and Michael J. Saville; Ward 6, George L. Bean.

**Summary from the Table of Aggregates**

Resident property owners . . . . .	9,088

# REPORT OF HEALTH COMMISSIONER

Quincy, January 1, 1921.

Necessary changes in the organization on January 1st resulted in more efficiency in the work of this department.

The severe weather during January, February and March hindered in the carrying on of our work. Owing to the continued snow it was necessary to add three pungs to our outfit. One garbage wagon and 3½ T. dump Truck were also purchased during the year which have proved a great help.

The delays caused by cold weather in getting trucks started in the mornings proved the necessity of having a properly heated garage in which to keep our trucks. We now have such a building which houses all our trucks and cars.

More demands for Scavenger work have been executed this year than ever before.

The Sewer extensions in sections where unsanitary conditions exist have eliminated many cesspools and privy vaults but there are still a larger number than should be for a city of this population, 413 Cesspools and 319 Vaults were cleaned during the year.

The assignment of the Health Inspector to the Milk Department has proved its value by the results obtained. The first unit of a laboratory has been installed and weekly tests have been made as recorded in report covering same. I would recommend an extension of this work to making Bacteria tests and the installation of the proper apparatus for same.

The number of contagious and reportable diseases have been normal. A slight recurrence of the Influenza occurred in the early part of the year but was of a mild type.

Other activities are recorded in the several reports.

Respectfully submitted,

EDWARD A. BEAN,  
*Commissioner.*

## CHILD WELFARE

January 1, 1921.

Mr. Edward A. Bean,  
Commissioner of Health,

*Dear Sir:* On May 3, 1920, I assumed the office of Child Welfare Nurse, and now have the honor to submit a report from May 3 to December 31, 1920 (inclusive).

Total number of clinics held . . . . .	33
Total clinic attendance . . . . .	539
Total number of visits made . . . . .	780
Total number of babies taken and referred to Hospitals for treatment	28
Homes found for children . . . . .	11
Prenatal cases . . . . .	33
Prenatal calls made . . . . .	49
Referred to family physicians . . . . .	43

Respectfully yours,

NETTIE H. DENTON, R.N.

## REPORT OF INSPECTOR OF MILK

January 3, 1921.

Mr. Edward A. Bean,  
Health Commissioner,

*Dear Sir:* I herewith submit my report as Sanitary Inspector in the Milk Department for the year ending December 31, 1920.

## Conditions of Local Dairies

With but few exceptions the local dairies are in a sanitary condition, kept clean and well ventilated, and milk rooms are well screened and kept clean and well drained.

I will say the milk supply of the City of Quincy will compare favorably with any section of the Commonwealth in regard to purity and cleanliness, and as a rule all milk will be found up to the State standard in quality. I would recommend a fully equipped Bacteriological laboratory for the year 1921 so that we may be able to take bacteria count.

Dairy inspections.....	642	
Sanitary inspections.....	337	
Milk samples — dairies, stores, restaurants, bakeries.....	312	
Milk samples from teams.....	107	
Milk samples for bacteria count.....	107

Summer months.....		
Chauffeur for Nurse.....	10	"

Vacation July 19-31 inclusive.

I was on James Brogan's work as Foreman. Aug. 2-14 inclusive on my own vacation Aug. 16-Sept. 1. I was in the office on Mr. Smith's work. I also attended two Milk Inspectors' Conventions in Boston.

Respectfully submitted,

JAMES O'DOWD,

*Sanitary Inspector Milk Department.*

**REPORT OF INSPECTOR OF MEAT AND PROVISIONS**

December 31, 1920.

To the Health Commissioner, Quincy, Mass.

*Dear Sir:* I submit herewith the report of the work in this office for the year ending December 31, 1920.

Inspections Made..... 456

**Meats and Foodstuffs condemned as unfit for food**

Pounds of Rolled Oats.....	180
Pounds of Beef.....	140
Pounds of Lamb.....	122
Pounds of Pork.....	68
Pounds of Corned Beef.....	50
Pounds of Hamburg Steak.....	3
Pounds of Poultry.....	106
Pounds of Veal.....	27
Pounds of Frankforts.....	31
Pounds of Sausage.....	11
Pounds of Beef Liver.....	5
Pounds of Pressed Ham.....	6

**Financial Statement**

Appropriation..... \$25.00

**Expended:**

Transportation.....	\$10.00
Clerical.....	10.00
Telephone.....	5.00
	<hr/>
	25.00

After taking over the duties of the office the first of January, and familiarizing myself with the work of the department, I commenced at once my inspections.

I found in some sections of our city, markets that were in such condition that I was obliged to give them a stated time to make a thorough clean-up in accordance to the rules and regulations of the Health Department.

In some localities I found stores and markets that had not been inspected for the past two years. In such cases I was obliged to condemn more or less meats as unfit for food.

I was at the office part of a day each week which enabled me to talk over with the Health Commissioner any business matters or any complaints that were made to the office or to me in person relative to meats or poultry sold unfit for food. These complaints were looked after at once and I also made a note of it on my inspection card, reporting same to the Health Commissioner.

You will find by my inspection cards that some markets were inspected more often than others and this was on account of the conditions I found them in.

As our city has grown fast the past five years, which means more stores in all sections with more inspections, I divided up my time using my best judgment where inspections were most needed.

During the coming year I shall endeavor to find time for more frequent inspections of all the various stores.

I desire to express my appreciation for the courtesy shown to me by officials of the Health Department.

Respectfully submitted,

HOWARD ROGERS,

*Inspector of Meats and Provisions.*

# REPORT OF INSPECTOR OF BUILDINGS

January 1, 1921.

Hon. William A. Bradford,  
Mayor of Quincy, Mass.

*Dear Sir:* Agreeable to the requirements of the City Ordinance, I herewith submit the Annual Report of the Building Department for the year ending December 31, 1920.

## Permits issued

115 Dwellings.....	\$502,300.00
3 Cottages.....	1,900.00
12 Mercantile.....	47,900.00
19 Manufacturing.....	450,050.00
32 Stables, etc.....	9,720.00
216 Auto Houses.....	141,292.00
190 Alterations.....	168,014.00
62 Removals.....	19,072.00
1 Miscellaneous.....	1,500.00
7 Elevators.....	24,000.00
658	\$1,365,748.00

## Statement

Cash received each month for permits issued from January 1, 1920, to December 31, 1920, inclusive, which sums were paid to the City Treasurer.

January.....	\$101.50
February.....	14.50
March.....	74.00
April.....	150.50
May.....	159.00
June.....	219.50
July.....	130.50
August.....	102.50
September.....	87.00
October.....	91.00
November.....	72.00
December.....	49.00
	\$1,251.00

Following is a tabulation of the permits issued and the estimated cost of proposed buildings erected within the City for the past three years.

## PERMITS ISSUED

	Dwellings	Cottages	Mercantile	Manufacturing	Stables, etc.	Auto Houses	Total
1918	378	2	14	16	22	191	623
1919	267	5	27	11	42	373	725
1920	115	3	12	19	32	216	397
	760	10	53	46	106	780	1755

## ESTIMATED COSTS

1918	\$3,183,850	\$400	\$44,673	\$76,154	\$3,975	\$46,858	\$3,355,910
1919	1,039,250	3,950	123,300	75,000	14,875	201,584	1,457,959
1920	502,300	1,900	47,900	45,050	9,720	141,292	748,162
	\$4,725,400	\$6,250	\$215,873	\$196,204	\$28,570	\$389,734	\$5,562,031

It will be seen by the above tables that there has been a gradual decline in the amount of building within the City during the past three years; but we have maintained a substantial amount above the other towns and cities of the Commonwealth, and the prospects for the coming year are very encouraging for an increased amount of proposed buildings for which plans are being matured.

Respectfully submitted,

WARREN S. PARKER,  
*Inspector of Buildings.*

# REPORT OF INSPECTOR OF WIRES

January 1, 1921.

Hon. William A. Bradford,  
Mayor of Quincy, Mass.

*Dear Sir:* I respectfully submit my Annual Report as Inspector of Wires, for the year ending December 31, 1920.

### NUMBER OF BUILDINGS WIRED DURING YEAR 1920

#### New Buildings

Single houses . . . . .	96
Two Apartment houses . . . . .	21
Mercantile . . . . .	12
Manufacturing . . . . .	10
Stables, etc. . . . .	8
Garages . . . . .	57

#### Old Buildings

Single houses . . . . .	467
Two Apartment houses . . . . .	74
Three Apartment houses . . . . .	14
Four Apartment houses . . . . .	8
Mercantile buildings . . . . .	194
Mfg. Bldgs., alterations and rewiring . . . . .	63
Misc., alterations and rewiring . . . . .	218

#### Electrical Fires

Seven fires in 1920 were due to old defective electrical systems or carelessness in the use of electrical appliances. To illustrate:

No. 1. Defective wiring under a bath-room floor ignited rags and paper wrapped around pipes to prevent freezing.

No. 2. Failure to turn the current off an electric iron setting on a metal plate, resulted in the plate becoming overheated to such a degree a wooden table took fire.

No. 3. Branch wires supplying current to electric iron were not properly soldered.

No. 4. Failure to pull a switch back far enough caused an arc which set fire to the installation on an electric motor.

No. 5. Wire furnishing current for transportation came in contact with lighting wires which were not properly grounded. Fire resulted and fixtures and other appliances were destroyed.

No. 6. Failure to comply with the rules governing splicing of wires in metal moulding caused insulation to ignite and set fire to a frame building.

No. 7. A service switch, too small for the number of lights on an electrical system, became overheated on account of the extra current consumed by the lights and other appliances, which were added from time to time. Rubber insulation was burning at switch connection when condition was discovered.

At the same time, it must be said in all fairness, that the foregoing is not an argument against the use of electricity, but a reason why care should be exercised at all times in controlling electricity, and particularly, that no work should be performed on electrical systems except by men of experience and judgment and only after a permit for same has been issued by the department of Inspector of Wires.

Respectfully submitted,

FRANK LINTS,  
*Inspector of Wires.*

# REPORT OF BOARD OF SURVEY

---

January 1, 1921.

To His Honor the Mayor,  
and Members of the City Council.

*Gentlemen:* The Board of Survey respectfully submits herewith its sixth annual report for the year 1920.

The Board organized March 5, 1920 with Eugene R. Stone as Chairman and P. F. O'Brien, Clerk. One new member was appointed to the Board, Mr. Herbert S. Barker, for a term of three years.

The Board held four meetings during the year and approved three street layouts.

## An Act relating to Board of Surveys

### General Acts, 1917 — Chap. 185

AN ACT TO PROVIDE THAT PLANS TO BE FILED FOR RECORD IN REGISTRIES OF DEEDS SHALL BE APPROVED BY BOARDS OF SURVEY.

Be it enacted, etc., as follows:

SECTION 1. No register of deeds in this commonwealth shall accept for record any plan of any territory or sections of land showing thereon proposed streets or ways, in any municipality in which there is a board of survey, unless the same shall have endorsed thereon a certification of said board, or other proper officer by it designated, that all provisions of law applicable to such plan have been complied with.

SECTION. 2. The city or town clerk of each city and town shall notify the register of deeds of the district in which his municipality is situated of the acceptance by such city or town of any act establishing a board of survey therein, and also of the name of the official designated by said board to approve plans under the provisions of this act.

SECTION 3. This act shall take effect on the first day of July, nineteen hundred and seventeen.

Approved April 16, 1917.

Respectfully submitted,

Board of Survey { HON. EUGENE R. STONE, *Chairman*,  
WILLIAM H. TEASDALE,  
HERBERT S. BARKER.

P. F. O'BRIEN, *Clerk*.

# REPORT OF DOCK AND WATER FRONT COMMISSIONER

---

Quincy, Mass., January 1, 1921.

## AMOUNT OF COAL BY WATER FROM JANUARY 1, 1920 TO JANUARY 1, 1921

### Bituminous

	<i>Tons</i>
Quincy Point Power Station .....	52,570
Quincy Electric Light Company .....	300

For Quincy Lumber Company .....	1,056,403

### Miscellaneous

1 Cargo Lime,	2 Cargoes Sand
Total number of openings of draw at Fore River Bridge .....	3,208

Respectfully submitted,

EDWARD M. WRIGHT, *Commissioner.*

# REPORT OF THE ENGINEERING DEPARTMENT

---

January 1, 1921.

To His Honor, William A. Bradford, Mayor,  
and Members of the City Council.

*Dear Sirs:* I herewith respectfully submit the twenty-first annual report of the Engineering Department for the year ending December 31, 1920.

The following is a statement of the work done by this department during the year 1920:

Street lines and grades have been given at the request of property owners of 100 estates.

Plans and estimates have been prepared by the engineering department as follows:

Proposed street widenings.....	4
Acceptance of private streets.....	15
Plans for Planning Board.....	3
Plans for Legislative Hearings.....	2
Miscellaneous plans.....	22

## Commissioner of Public Works

Lines and grades have been given for construction of new streets, sidewalks, sewers and drains.

### Washington Street Widening

The widening of Washington Street which was begun by the U. S. Government in November 1917, was finished in 1920.

The U. S. Government paid the construction cost and the City of Quincy paid the land damages.

### Elimination of Grade Crossings

The question of elimination of grade crossings again came up for consideration this year. Early in the year the Railroad Company promised to begin work eliminating the crossing at Saville Street but nothing was done until late in the year.

The question of the platform and stair arrangement at the Quincy Station was taken up by the Railroad authorities with his Honor, Mayor Whiton and after several conferences an agreement was reached whereby the Railroad will build two island platforms with one subway 20 feet wide under the tracks about 80 feet south of passenger station; a wooden foot bridge over the tracks at Saville Street, until such time as the four track system will be built, when a subway will replace the wooden bridge. A connection will also be made between the platforms and Granite Street.

Construction work was begun December 21, 1920, and owing to the inclemency of the weather was stopped again on December 23, 1920, with an assurance by the Railroad officials that it would begin again in the early spring.

**Hancock Street**

The question of paving Hancock Street was taken up in the early Spring and the Commissioner of Public Works wanted an additional appropriation of \$21,000 to be added to the \$75,000 appropriation of 1919, but the order was rejected.

Work started at Hancock Square, at the Junction of Hancock Street with Adams Street, and the street was paved from curb to curb northerly as far as appropriation would allow, which was a length of 3400 feet.

**Adams Street at Eaton's Ice Pond**

The straightening of Adams Street at Eaton's Ice Pond has been considered for years and in July, 1920, \$14,000 was appropriated for the work. The new street was joined to the old roadway between the Boulevard and Common Street on the west side and made a street about 100 feet wide.

It was then decided to divide the traffic by putting a grass area in the centre, this change with curbstone etc., added \$10,000 more to the expense.

**Sub-Passage — Wollaston Station**

For a long time the question of a means of passage from one side of the railroad track to the other side at the Wollaston Station has been under consideration and this year an agreement was made with the railroad Company to allow the foot passageway to cross their location, with the agreement that the City of Quincy bear the entire expense.

The sub-passageway was built under the present two tracks at an expense of about \$20,000 with a provision being made to extend sub-passageway when the four track system is extended.

Yours respectfully,

PATRICK F. O'BRIEN,  
*City Engineer.*

**The following streets have been laid out during the year as  
Public Highways**

<i>Street</i>	<i>Location</i>	<i>Ward</i>	<i>Length</i>
Bellevue Rd.	Huckins Ave. to Summit Rd.	6	1100
Baxter Ave.	Washington St. to Hill St.	2	1100
Bromfield St.	Mason St. to Boulevard	6	1120
Colby Rd.	Faxon Rd. to Sharon Rd.	6	300
Eustis St.	Rawson Rd. to Cummins Ave.	5	700
Kemper St.	Waterston Ave. to Fenno St.	5	660
Massachusetts Ave.	Washington St. to Lyndon St.	2	760
Rockland St.	Chatham St. to Rhoda St.	1	700
Safford St.	Hobart St. to W. Squantum St.	6	1900
Suomi Rd.	Smith St. to Buckley St.	4	960
Summit Ave.	Grove St. westerly	6	900
Trescott St.	Franklin St. to Endicott St.	3	380
Vassall St.	Billings Rd. to Boulevard	6	800
Vassall St.	Oxenbridge Rd. to Freeman St.	6	250

**Permanent Sidewalks**

Granolithic sidewalks have been built on the following streets during the year.

<i>Street</i>	<i>Location</i>	<i>Length</i>	<i>Curbing</i>
Coddington St.	Washington St. easterly	118	16
Hancock St.	Merrymount St. northerly	85	...
School St.	Hancock St. to Franklin St.	997	200
Washington St.	Hancock St. to Coddington St.	171	...
" "	Coddington St. to Canal St.	1072	50

### SEWER DEPARTMENT

The following is a brief report of the sewer division for the year ending December 31, 1920.

The City Council passed three different appropriations for sewer construction of \$20,000, \$25,000, and \$15,000 respectively. The latter two appropriations were made principally to provide for sewers in certain streets that were to be built by the street department, namely, Safford Street, Vassall Street, Massachusetts Avenue and Summit Avenue. This same policy should be carried out by providing money to sewer the balance of Hancock Street at an early period and give the trenches proper time for a full settlement. It is the intention of this department to make an early start on the main sewer in Fenno Street.

This year an appropriation of \$10,000 with an additional appropriation of \$2,500 was made to put in the particular sewers, and for the coming year an appropriation of \$15,000 will be necessary.

Our cleaning and maintenance work has been somewhat handicapped by the lack of sufficient funds. Repairs made for the protection of the Houghs Neck Main Sewer along the river front, and the adjustment of several sewer manholes through the low lying lands necessitated quite an unforeseen expenditure.

The tables following show the amount of the work done during the season.

## COMMON SEWERS BUILT IN 1920

# REPORT OF THE PLANNING BOARD

---

January 1, 1921.

To His Honor, the Mayor, and Members of the City Council,

*Gentlemen:* Organization for the sixth year of the City Planning Board consisted of the re-election of Wilson Marsh, Chairman, and City Engineer, P. F. O'Brien, Clerk. Mr. E. C. Sargent was reappointed upon the Board.

Ten meetings have been held. The first Tuesday in each month has been selected as the regular meeting date for the coming year.

This year the Board subscribed to regular membership in the Massachusetts Federation of Planning Boards. We were represented at the Fall conference of the Federation at Amherst by the chairman of the Board. This meeting was held in conjunction with a three days' session of the American Civic Association. The Massachusetts Agricultural College extended the courtesies and the usual instructive satisfaction was meted out to those who attended. It is hoped that Quincy may have the satisfaction and privilege of a regular conference in a Metropolitan Boston group.

The routine business at meetings during the season consisted of the approval of the plans for development in the neighborhood of the Furnace Brook Parkway upon the property of Mr. F. B. Rice. Meetings were held with members of the Burns Memorial Committee which has favored us with its patience in the hopes that we may work together in determining the best possible location for this artistic and generous memorial.

Early in the fall the Board had its attention called to the so-called Hall plot for a Playground in the Norfolk Downs section. This was given the tentative approval of the Board at the time and at the close of the year when the subject was presented to us from the City Council we made a thorough study and returned favorable report, which passed the Council.

The original naming of Squares in memory of the world War Veterans, referred to us, also that of Anne Hutchinson Square, received our approval.

Some of the recommendations which we have in mind for the coming year are as follows:—

We should continue the re-forestation of Faxon Park with 2,000 more White Pines to follow the 2,000 of this year and plan another 2,000 in 1922. This is in conformity with the request of Andrew Stewart, our City Tree Expert. The cost of these trees from the State stands at one cent each and will certainly be an investment for the future, as the original venture appears to promise.

The Board is completing plans to present to the incoming Legislature again for the Pilgrim Parkway. Traffic which very promptly started through the new Pilgrim Boulevard from the Quincy Shore Reservation at Merrymount did not relieve Quincy Square. It invariably passes through Sea and Coddington Streets and adds to the interminable congestion. There must be a way sooner or later provided for relief. Our plan can do this, and should receive the unqualified support of our Legislators. We are only asking this year that the plan be carried through to Washington Street. The question of a logical extension through North Street to Quincy Avenue we will hold in abeyance.

In connection with the above the Board is following up through a sub-committee the project of the State completing the surfacing of Willard Street from West Street to the Braintree line. It will take but very little consideration for anyone familiar with modern conditions to see that travel from Granite Avenue bridge will flow directly through the up-to-date thoroughfare this will create, to Braintree, Holbrook, Brockton and beyond.

Studies for Comfort Stations both at Quincy Centre and Houghs Neck will be renewed at once, in conformity with recommendations in the Mayor's Inaugural address.

We wish to renew especially at this time our suggestions from the report of 1917 for a foot bridge at Merrymount Park, that Pine Island may become an attraction to our citizens, particularly that the Black's Creek Dam is now to become a certainty.

We renew our previous endorsement of a White Way through the Centre and suggest therewith that a movement be started as soon as practicable to reduce the number of poles and wires now existing on Hancock Street between Granite and School.

Another matter to which the Board has given its particular attention is the upheaval of accepted streets by the Public Utilities Companies and the fact that a well surfaced street is rarely restored to its original condition after new house services are made. It should not be necessary for this Board to recommend that this matter receive the attention of the City authorities and those operating on our streets be assessed the expense of restoration. The Board will follow this up with specific recommendations if conditions are not remedied.

We would renew recommendations of previous years as follows:—

A building line on Franklin Street from School to Independence Avenue.

A building line on North Street from Washington to Fifth Avenue.

That Greenleaf Street be extended at both ends, procuring a thoroughfare from Adams Street to Sea Street.

That dead ends streets be extended through when accepted.

The City Hall problem is still with us, also that of the location of a new Police Station, Municipal Garage, City Stables and such location as the Trustees may determine for the new Soldiers' Memorial Building.

The Grade Crossing problem is nearing solution and only awaits the passing of winter conditions to reach completion, so far as Quincy Centre is concerned.

A Bill is in the Legislature looking to the completion of Furnace Brook Parkway to Hancock Street. The work of the City at the junction of the Parkway and Adams Street in relieving a bad condition, is a subject of special commendation by this Board.

A study which the Board is working upon, it is anticipated, will be the subject of a special report later in the year.

Respectfully submitted,

CITY PLANNING BOARD.

WILSON MARSH, *Chairman*,  
EZEKIEL C. SARGENT,  
JAMES E. W. GEARY,  
EDWARD E. PALMER,  
CHARLES H. FINN.

PATRICK F. O'BRIEN, *Clerk*.

# FORE RIVER BRIDGE

## FINANCIAL REPORT OF THE TRUSTEES OF THE FORE RIVER BRIDGE FOR THE YEAR ENDING DECEMBER 31, 1920

## SUMMARY OF STATISTICS

For year ending December 31, 1920

In form recommended by the New England Water Works Association

### QUINCY WATER WORKS

#### General Statistics

Population by census of 1920.....	47,876
Date of construction.....	1883
By whom owned.....	City of Quincy
Source of supply.....	Metropolitan system
Mode of supply.....	Pumping to reservoirs

#### Statistics of Consumption of Water

Estimated total population to date (December 31, 1920)	49,500
Estimated population supplied	49,500
Total consumption for the year	1,636,947,000 gallons
Average daily consumption	4,472,500 gallons
Gallons per day per capita	93
Gallons per day per tap	406.5

#### Statistics Relating to Distribution System

##### Mains

Kind of pipe, Cast Iron and Steel  
 Sizes, 2 inches to 20 inches  
 Extended 11,614 feet during the year.  
 Discontinued 2,382 feet during the year.  
 Total now in use, 144.6 miles.  
 Length of pipe less than 4 inches in diameter, 6 miles.  
 Number of Hydrants added during the year, 20.  
 Number of Hydrants now in use (including 92 private hyds.), 1,253.  
 Number of Stop Gates added during the year, 30.  
 Number of Stop Gates now in use, 1,964.  
 Range of Pressure on mains, 32 to 80 lbs.  
 Average Pressure for whole city, 70 lbs.

### Services

Kind of pipe, Galvanized W. I. and Lead lined W. I.

Sizes,  $\frac{5}{8}$  inch to 8 inches

Extended, 9,338 feet

Discontinued, 322 feet

Total now in use, 96.07 miles.

Number of taps added during the year, 203.

Number now in use, 11,027.

Average length of Service, 46 feet.

Number of meters added, 279.

Number now in use, 10,107.

Percentage of Services metered, 91.6.

## DISTRIBUTION SYSTEM

### Main Pipe

A total length of 11,614 feet of main pipe, from 4 inches to 10 inches in diameter, was laid this season, of this 2,382 feet were renewals and 9,232 feet were extensions. There was a net gain in the system of 9,232 feet of main pipe, which brings the total length in use December 31st of 763,511 feet, or 144.6 miles.

### Service Pipe

Two hundred and three (203) new services were installed during the year, seven (7) services were abandoned, making a net gain of one hundred and ninety-six (196) services. This is a very considerable loss over the previous year's high figures of five hundred and ninety (590) services.

### Meters

There were 279 new meters installed and 9 meters discontinued, making a total net gain of 270 meters. 7 meters were changed, 870 were removed and tested at the Penn Street shops.

On December 31, 1920 the total number of meters on services was 10,107.

### Gates

Thirty (30) new gates were installed and five (5) were abandoned during 1920, making a net gain of 25.

The total number of gates in service in the Distribution System December 31, 1920, was 1964.

160 gate inspections were made during the year, in connection with which 16 gates and 11 gate boxes were repaired.

### Hydrants

On December 31, 1920, there were 1253 hydrants in use in the Distribution System, this is a net gain of 20 during 1920. This net gain was made up of 22 new hydrants installed and 2 old ones abandoned.

Inspection of the public Fire Hydrants was continuous throughout the year. 1812 inspections having been made, in connection with which 81 Hydrants were repaired.

### **Flushing Dead Ends**

The annual flushing of the dead ends in the system was completed in March.

### **Consumption**

The average daily consumption of water during the fiscal year was 4,472,500 gallons or 77,600 gallons per day less than last year.

The average per capita consumption was 93 gallons or 2 gallons less than last year.

### **Leaks in Main Pipe Lines**

Twenty-eight leaks were repaired on main pipe lines during the year. Most of these were in the old steel pipe laid some 36 years ago when the system was first constructed.

We still have about 18 miles of this pipe in our system and the smaller sizes are being replaced as fast as our funds will allow.

### **Standpipes**

The Standpipes at Houghs Neck and Penn's Hill were thoroughly cleaned and painted two coats, inside and outside.

# REPORT OF HOSPITAL DEPARTMENT

---

January 1, 1921.

Hon. Joseph L. Whiton,  
Mayor of Quincy, Mass.

*Dear Sir:* The Board of Managers of the City Hospital respectfully submit the report of the Hospital department from the date of the control by the City on March 1, 1919 to December 31, 1920, a period of one year and ten months.

For thirty years the Hospital had been supported by the generosity and devotion of our public spirited citizens, but the rapid growth of the City together with the sudden overwhelming demands upon its capacity incident to war time activities, required financial resources too great for private benefactions to meet, when aid from the City was prevented by the passing of Article 46 of the Amended Constitution of Massachusetts, ratified and adopted November 6, 1916, Anti-Aid Law which prevented the appropriation of City money to charitable organizations unless owned by the City or State.

On assuming our duties we were impressed by the magnitude of the task imposed upon our predecessors, the former Trustees. The World War called many of our surgeons and nurses for service abroad, while on those of the Staff who remained on duty to care for the health and lives of our community, was placed a staggering burden of care and responsibility, especially severe, during the dark days of the dreadful epidemic. Then came a fire in the Administration Building, which only the prompt and efficient action of the Fire Department prevented from spreading to the wards and endangering the lives of the sick. Small wonder, then, that under these abnormal conditions, with mounting and uncertain costs, the Board has had work in plenty to do, in the many adjustments occasioned by the change from private to municipal control, in the gradual elimination of war time waste and inefficiency, in the many repairs to power plant, and buildings, necessary to protect the property and keep the Hospital in operative condition.

Convinced at the outset of the absolute necessity of additional capacity, we have for some months been engaged in the study and development of comprehensive plans prepared by Mr. Edward F. Stevens of Boston, an architect of great experience in hospital planning and construction.

A new Service Building, combining Power Plant, Laundry, Kitchen, Dining Room and Dormitories must first be built to replace the wasteful and overloaded boilers and equipment now in use. Then a new Maternity Ward and private rooms, to meet the insistent and increasing demand of our citizens for these accommodations and to help reduce the burden of the present heavy overhead expenses by reason of this largely increased revenue.

This general plan will be presented at an early date for the consideration of the City Council.

The City is to be congratulated in the acquisition of the very desirable lot containing 182,230 square feet, purchased in March, 1920, of Mrs. Helen L. King and adjoining southerly the original hospital grounds. On the brow of the hill commanding extensive views of Quincy Bay and the

approaches to Boston Harbor, this lot affords an ideal location for additional buildings, which can be erected there without interruption of the current operations and activities of the Hospital.

During the year there has been placed on the walls of the Rice Pavillion a beautiful memorial tablet in bronze, the gift of Mr. Fred B. Rice, son of the Founder, with this inscription:

THE CITY HOSPITAL OF QUINCY  
OPENED JUNE 1890  
TAKEN BY THE CITY, FEBRUARY 1919

---

THIS TABLET ERECTED IN MEMORY  
OF  
WILLIAM B. RICE  
PRESIDENT OF THE BOARD OF TRUSTEES  
UNTIL HIS DEATH IN 1909  
FOUNDER — UNFAILING FRIEND — WISE COUNSELOR  
GENEROUS SUPPORTER  
AND OF  
JOHN A. GORDON  
TRUSTEE AND PHYSICIAN WHO FROM ITS CONCEPTION  
GAVE THE HOSPITAL LOVING CARE AND SERVICE  
UNTIL HIS DEATH 1918

We wish here to express our appreciation of the service of our associate, Charles P. Hutchins, one of the original members of the Board, who resigned in July 1920, by reason of change of residence from the City.

In closing, we gratefully acknowledge the hearty coöperation of the City Council and the several Departments of the City, the generous contributions and active and sympathetic interest of the Red Cross, The Hospital Aid Association, the Churches and other organizations of the City, and the many words of helpful suggestion and encouragement from our citizens. Financial Statement and Statistics annexed hereto.

Respectfully submitted,

HENRY M. FAXON, *Chairman*,  
JOHN J. CAREY, *Secretary*,  
F. CHARLES BARNICOAT,  
THOMAS GRIFFIN,  
THOMAS FENNO.

## REPORT OF THE TRUSTEES

---

*To His Honor, the Mayor of the City of Quincy:*

The Trustees of the Thomas Crane Public Library beg leave to submit their fiftieth annual report.

The past year has been one of continued progress. Stating it in terms of circulation the figures are nearly twice what they were two years ago, due, in large part, to the able and effective administration of the Librarian, Mr. Temple. To bring the Library into closer touch with the public, two new branches were opened, one at the Francis W. Parker School, and one in the Malnati Building in South Quincy. On the recommendation of the Librarian the Trustees authorized the appointment of an executive assistant because of the rapid expansion of the library work. The Trustees were fortunate in being able to secure for this position Miss Kathleen Ainey who combines a college and library school education with practical experience in Harrisburg, Pennsylvania, and Waterbury, Connecticut.

Salaries have gradually been readjusted on the basis of fair compensation for the work done, and its importance. Because of the increase in the number of branches and in order to give prompt service a light delivery car was purchased. This is operated by the janitor, and is accomplishing its purpose as well as effecting a real economy.

Last Spring the old unsightly two-story dwelling house on the northerly portion of the Pratt lot, purchased by the Trustees the previous year, was sold and removed. The southerly line of the Library grounds was then straightened so as to include part of this lot, and after grading it a neat iron fence was erected from Spear to Washington Streets. This together with the work done by the City in building a wide permanent sidewalk on Washington Street has improved the proportions of the grounds and greatly enhanced the beauty of the Library building itself. The enlargement of the grounds seemed to make almost necessary the purchase of a gasoline

propelled lawn mower. This was done and the result has been that the entire lawn is now easily mowed in one day, and, incidentally, rolled. For the first time in many years, because of this purchase, the Trustees were not obliged to employ extra help for the care of the lawn. We are pardonably proud of the splendid appearance and condition of the Library grounds.

The Trustees again have occasion to acknowledge with sincere gratitude the deep interest ever manifested in the Library by the Crane family. Under the will of the late Albert Crane we received last November, the sum of \$34,107.34 as part of a new endowment to be known as the Crane Memorial Fund. This amount was three-sixteenths of the principal of a trust originally established under the will of his mother, Clarissa L. Crane, which provided that on his death it should be distributed as he should designate in his will. Further sums amounting to approximately \$100,000 will be available later under other provisions of his will, and added to this fund. The Trustees are authorized to use the income and principal for the extension of the Library and for general purposes. Such a large responsibility calls for the exercise of the utmost caution on the part of the Trustees in expending the fund. It will be our endeavor to comply, so far as possible, with the wishes of the family, even though not legally binding upon us.

Respectfully submitted,

GEORGE W. ABELE, *Chairman,*

ELIZABETH H. ALDEN, *Secretary,*

*For the Trustees.*

## REPORT OF LIBRARIAN

---

*To the Trustees of the Thomas Crane Public Library:*

I submit below the Librarian's report for the year ending December 31, 1920.

The library has enjoyed a prosperous year. The growth begun in 1919 has continued until an annual circulation of 327,253 volumes has been reached. The work of the library has thus been doubled in two years, or to be exact, it has increased 96 per cent. For the mind that delights in statistics it may be stated that the cost from the city appropriation per volume circulated in 1920 was 8.56 cents. This is lower than the pre-war figures, the lowest in fact of any year for which figures are available. In spite of the fact that the 48,000 inhabitants of Quincy are scattered over 17 square miles, the library circulated an average of seven volumes to every man, woman and child. The circulation also averages seven loans for each volume. Both these results are considered maximum among libraries at large. However, many of the best things that the library has accomplished are not reducible to mathematical statement.

With a view of encouraging a taste for a better quality of fiction a supply of the list of the thousand best novels was obtained. This list was prepared with great care by the public library of Newark, New Jersey. Copies were suspended in the fiction stacks of the main building and in the branches. Other copies were placed on sale at the desks at a nominal sum. With the exception of a few titles recently out of print all the titles listed were purchased if not already on our shelves. The experiment has proved successful and a decided interest on the part of the public is reported by all the assistants.

The branches established in Wollaston and at Quincy Point in the closing months of 1919 have shown a healthy development. The former has assumed an importance equal to that of either of the older branches. The Quincy Point branch, while doing some-

what less work, has been decidedly useful in meeting the needs of the men working in the Fore River shipyard. Technical works of a great variety have been provided and are freely used. Both branches are greatly appreciated by the communities which they serve.

At various times requests have come from South Quincy for a collection of books in that section. In April a small branch was opened in Malnati's hall, under the care of Miss Baxter. It has been open to the public three afternoons and three evenings each week. Judging by the figures it is less than half as important as the other branches. Viewed in the light of the complete lack of recreational facilities of the neighborhood it assumes more importance. The chairs are filled each evening with readers and the present quarters are entirely inadequate.

Toward the end of December a few shelves were installed in a room of the Francis Parker school at Norfolk Downs, and a few juvenile books were loaned. Full book service was not started owing to the delay in the arrival of shelving. With the opening of this branch the last large centre of population in the city will be within one-half mile of a branch.

We have kept in close contact with Miss Shanahan and later with Miss Perry in their Americanization work for the Quincy public schools. Needed books have been provided upon their recommendation. Classes have been brought to the library and its resources explained. We may mention in this connection that the use of books in Italian, French and Syrian have been in especial demand. These collections have been enlarged when possible, and a few volumes in Polish and Yiddish have been added for the first time as an experiment. We have also books in three or four other foreign languages which are more or less active. I am convinced that the library does much toward making the foreign-born citizen feel at home when he is quietly made to feel welcome to the use of its resources. As in previous years we have been greatly assisted in the work by Miss Maud J. Campbell, Director of Work with Foreigners for the Free Public Library Commission.

I wish to quote two remarks recently made to me in person. A gentleman said, "I make my living investigating offices and pointing out where time and energy may be saved. I dropped into

one of your branches the other night and the thing that struck me was the easy way I could pick out a book, get it charged and get out." Again a lady on returning a book said: "That book is a day or two overdue and I am sorry. You have so few rules that I regret to break one of them." Librarians are nearly enough human to be pleased with praise. But the remarks pleased for a deeper reason. They gave assurance that in a measure at least the library is attaining one of its definite aims,— to make it as easy as possible for the people of the community to obtain the books which they need. Every effort has been made to make books accessible. Any book that is circulated at the Central building will be carried to any branch on request on any of the thrice-a-week deliveries. A borrower's card is equally good in any part of the system. The purchase of a small car in March has greatly helped in making possible this more extended service.

It is a matter of pride to me that we have again circulated more books among the children than among the adults. The twelve per cent difference is still greater than that of 1919. Miss Reed in the Children's Room has constantly aimed to keep the standard of book selections high and we believe that permanent tastes for better reading are being formed. Three new schools have received collections, Montclair, Daniel Webster and Francis Parker. Combined, the eight schools now served make a larger use of books than does any single one of our branches. Additional light is thrown upon our relations with the schools by the following extracts.

Miss Bishop of the Government School at Quincy Point in a talk recently given before the Pickwick Club on "New Methods in Education" said: "In the application of the problem-project method which, up to the present time, has probably been more generally used throughout the schools of Quincy than in any other city of the state, many books of reference are necessary and our public library has promoted the development of this method by placing special collections in the rooms as needed."

In an address to the Framingham Normal School last month, Miss Dellicker, Grammar Supervisor of the Quincy Schools, referring to the relation between the schools and the local library, said: "I feel that the best piece of work done for the schools by the Public Library during the past year was the devising of a sys-

tem of cards countersigned by the pupil's teacher and admitting children of the grades to the reference department heretofore reserved for adults."

The Public Library of Boston has laid us under heavy obligation during the past year. Scarcely a week has passed in which we have not received one or more volumes especially requested by our borrowers. The loans are usually in line with some special interest of the reader and represents a service value out of all proportion to the mere figures in which they would be expressed. We are sadly limited in the size of our collection having less than fifty thousand volumes. If denied the generosity of our richly equipped neighbor our work would distinctly suffer.

The relations with the Staff have been uninterruptedly pleasant. The Staff meetings which have been held twice each month except when pressure of work prevented have continued to develop harmony and to unify effort. The general good health of the assistants has been a matter for rejoicing. The total absence for illness has been less than the twelve days allowed each. There have been few changes. In April, Miss Whittemore left to accept a position in the Business Administration Department of the Widener Library. In November, Miss Cochrane resigned after a service of twenty-five years to go to the same institution. November first, Miss Kathleen Ainey came to us from the Public Library of Waterbury, Connecticut, to fill the position of Executive Assistant. Her previous training and experience have enabled her to relieve me of many of the duties which have been added by our rapidly enlarging system. In November, Miss Files came to the Delivery Desk of the Central building from the Wollaston branch and Miss Vickery assumed the duties of the latter place.

There is much of promise in the year ahead. I believe that the members of the Staff as well as myself look forward to it with enthusiasm.

Respectfully submitted,

TRUMAN R. TEMPLE, *Librarian.*

At a meeting of the Board of Directors held January 11, 1921 the report of the Superintendent was accepted, adopted and ordered printed as the report of the Board.

# REPORT OF THE SUPERINTENDENT OF WOODWARD INSTITUTE

---

*Gentlemen:* I herewith submit the annual report of Woodward Institute.

Since the last report a change has taken place in the management of the school. In June Superintendent Barbour felt obliged to give up the supervision of this school, owing to pressure of duties connected with the administration of the public schools of the city, and his resignation was accepted with regret by the Board of Directors. The management of the school was then placed in the hands of the Principal under the control of a supervisory committee consisting of three members of the Board of Directors.

At a joint meeting of the Board of Directors and the Board of Trustees it was decided to paint the buildings located on the school lot, and to make such other repairs as were immediately necessary, the cost of the same to be defrayed out of the surplus fund. These repairs were made during the summer vacation under the direction of the Principal. Repairs within the building will be required in the near future, in order to keep the plant in a condition suitable for use.

In June four teachers resigned for various reasons. Their positions were filled only after a diligent search. It was judged expedient to condense the Physical Training course into two days a week. A skillful and experienced teacher was secured for this position, under whose guidance the plan is working very successfully. Without exception the new teachers are fully meeting expectations, and the entire corps is rendering faithful and efficient service. A general increase of salaries was necessarily made, but they are still below what is being paid by schools of similar standing, in order to secure and retain experienced teachers of the desired grade.

The present condition of the school is generally satisfactory. A spirit of harmony and coöperation prevails among teachers and

pupils. Two factors are essential to progress in every good school. First, a well trained, earnest student body willing to work for itself, as well as to be taught; and second, an efficient, skillful, and enthusiastic corps of teachers possessed of that indefinable, but indispensable, human quality called aptitude for teaching. When these two essentials are present, each serving as an inspiration to the other, improvement in grade of scholarship, and more constant and punctual attendance, which are the ends in view, can be confidently expected.

The system of mid-year promotions, which is in use in the Quincy public schools, automatically shuts out from this school some who would otherwise attend. Since it is inexpedient for us with our limited teaching force to form new classes in the middle of the year, our pupils must be drawn from those who graduate from the grammar schools in June. Notwithstanding this handicap, the enrollment is a little larger than it has been for the past year or two, and is about as large as the building can comfortably accommodate. Scholarship is more desirable in a school of this character than a large enrollment.

The prize offered annually by the Alumnae Association to the senior class for the best essay upon an assigned subject was awarded to Myrtle A. Parker of the class of 1920.

Respectfully submitted,

HORACE W. RICE.

## NOTES

---

1. The figure at the right of each study denotes the diploma points allowed for its successful completion. The figure in parentheses denotes the number of recitations per week when this differs from the number of diploma points.

2. Two foreign languages should not be begun at the same time. A foreign language to be beneficial should be studied at least two years.

3. Every pupil is required to take physical training unless excused upon the advice of a regular physician.

4. Place X opposite the course elected, also before each study elected.

5. A total of seventy-two points is required for a diploma.

6. Report cards are issued every eight weeks.

7. The daily session begins at a quarter past eight and closes at one o'clock.

8. A written request by parent or guardian is required for dismissal during the school session.

9. Cooking and sewing will be offered in the fourth year of the General Course, if ten elect the same.

## DEPARTMENT OF ENGLISH

---

### LITERATURE

The first two years of the course in literature are spent in reading carefully, but without attempting detailed analysis and criticism, as much of the world's best literature as the time will allow. The books are selected because they are adapted to the minds of the readers and are worth reading. They include not only English classics, but good translations from the literature of various nations, and cover many subjects. There are three distinct aims in the course: (1) To teach the students to read intelligently and enjoyably; (2) to develop in them a taste for good literature; (3) to lay a broad foundation for the subsequent study and appreciation of the English classics selected for the third and fourth years. An outline history of English literature, supplemented by a study of English poets, completes the four years' course.

### COMPOSITION

The work in composition is correlated with the course in literature — narration, description, exposition, and argument, each taken in turn. The course is designed to aid pupils in expressing themselves clearly and logically in oral as well as in written form. Fortnightly themes are required during all four years. These formal compositions are supplemented by frequent classroom exercises in dictation, letter-writing and outlining. During the fourth year, formal argument is studied, together with preparation and practice in debating.

 The pupils are urged to write from their own experience, to write often, and to acquire the habit of using simple, correct, idiomatic English.

DEPARTMENT OF LATIN

---

- I. Latin Lessons.  
Translation of prose selections.
- II. Cæsar — Commentaries on Gallic War, books I-IV inclusive.  
Sight reading.  
Prose composition, based on Cæsar.  
Grammar.
- III. Cicero — Orations against Catiline, The Manilian Law and Archias.  
Sight reading.  
Prose composition, based on Cicero.
- IV. Virgil, Æneid, books I-VI inclusive.  
Sight reading from Ovid.  
Prosody.  
Prose composition reviewed, supplemented by college entrance examination papers.

DEPARTMENT OF MODERN LANGUAGES

---

## FRENCH

- I. Pronunciation.  
Grammar: Conjugation of regular verbs, and a few irregular verbs.  
Simpler uses of tenses and moods.  
Syntax.  
Memorizing: Prose selections.  
Reading: Lectures Faciles, Le Français et Sa Patrie or La Tâche du Petit Pierre.
- II. Dictation.  
Conversation.  
Paraphrasing.  
Composition.

- Grammar: Continuation.  
 Conjugation of irregular verbs.  
 Uses of tenses and moods.
- Reading: de Maistre's Prisonniers du Caucase.  
 Sandeau's Mlle. de la Seiglière.  
 Daudet's La Belle-Nivernaise.  
 Le Gendre de M. Poirier.  
 Le Voyage de Monsieur Perrichon.
- Memorizing: Poetry.
- III. Dictation.  
 Conversation.  
 Constant practice in translating into French.  
 Memorizing: Prose and poetry.  
 Grammar: Bruce's Grammaire Française.  
 Review and continuation of difficult points,  
 especially the subjunctive.  
 Study of idioms.
- Reading: Molière's L'Avare.  
 Corneille's Le Cid.  
 Balzac's Eugénie Grandet.
- Prose Composition: François.

#### GERMAN

- I. Pronunciation.
- Grammar: Declension.  
 Conjugation of weak verbs and of the more  
 usual strong verbs.  
 Simpler uses of tenses and moods.  
 Prepositions.  
 Syntax.
- Memorizing: Vocabulary for oral and written work.  
 Prose and poetry selections.
- Composition: Translation into German.  
 Transposition.
- Reproduction.  
 Dictation.  
 Easy Conversation.  
 Im Vaterland, Storm's Immense.

- II. Grammar: Conjugation of strong and irregular verbs  
and modal auxiliaries.  
Order of words.
- Translation: Schiller's *Der Neffe als Onkel*.  
Arnold's *Fritz auf Ferien*.  
Gerstacker's *Germelshausen*.  
Hillerne's *Höher als die Kirche*.  
Wildenbruch's *Das Edle Blut*.  
Sight reading from easy texts.
- Memorizing: Poetry.
- III. Prose Composition.
- Grammar: Continuation of difficult points.
- Conversation.
- Memorizing of German Folk Songs.
- Translation: Gerstacker's *Irrfahrten*.  
Lessing's *Minna von Barnhelm*.  
Schiller's *William Tell*.  
Freytag's *Die Journalisten*.
- Selected books for supplementary reading.

## DEPARTMENT OF SCIENCE

---

- I. Introducing to Science — to teach the meaning of science as a whole and to develop a taste for science as a preparation for subsequent work by making it both useful and attractive. This is done by including in the course subjects of common interest like the following: How to read a meter; water supply systems; adulterants and simple methods for their detection; color in foods; headache preparations; removal of stains; the camera and photographic printing.
- II. Biology. This is made to include the functions of all living things, both plant and animal, as they relate to man; movement, irritability, nutrition, respiration, excretion and reproduction.
- Birds, reptiles and mammalia from the economic standpoint.

Health and disease from the standpoint of private and public hygiene.

Protective medicine and sanitation.

The relations of insects and animals to the spread of disease.

Man is the center of the course, and at the close all biological principles studied are applied to the human mechanism.

In the spring a small herbarium is made.

III. Chemistry or Physics.

## DEPARTMENT OF MATHEMATICS

---

I. Elementary Algebra.

II. Plane Geometry,—demonstrations and original work.

III. College reviews.

## DEPARTMENT OF BUSINESS

---

### FIRST YEAR

Commercial Arithmetic. A Review of fundamental processes.  
Short methods and drill in business problems.

### THIRD YEAR

Bookkeeping. Double and single entry.  
Stenography. Principles of stenography.  
Typewriting. Touch method.

### FOURTH YEAR

Stenography. Practice in reading and writing shorthand.  
Typewriting. Transcribing shorthand notes. Copying. Duplicating.  
Commercial Geography. A study of commercial and industrial conditions, products and countries.

## DEPARTMENT OF PHYSICAL TRAINING

---

- I. Physical examination. Prescription and individual work, when necessary.  
Class work: Free gymnastics, bar work, rings and clubs.  
Games: Basket-ball, tennis and outdoor games, when the weather permits.  
Simple dancing steps, including the polka and schottische steps. Folk dances.
- II. Physical examination and prescription work. Class work: Muscle free work as well as apparatus work, which includes bar, rings, wands, dumb-bells and clubs.  
Games: Basket-ball, tennis and outdoor games. Folk dancing and fancy steps.
- III. Physical examination and prescription work.  
Class work the same as that of the second year, but more advanced.  
Games: Basket-ball and tennis.  
Advanced folk dancing and fancy steps.
- IV. Physical examination and prescription work.  
Class work: Free work and apparatus work.  
Games: Basket-ball and tennis.  
Advanced folk dancing and æsthetic dancing.

## DEPARTMENT OF HISTORY

---

- I. Ancient History. (a) A preliminary consideration of the origin and races of mankind — their primitive condition, migrations, and progress toward civilization.  
(b) A brief study of the extinct civilization of the East.  
(c) Greek history to the death of Alexander.  
(d) Roman history from the founding of the city to 800 A. D.
- II. Mediæval and Modern History.

- III. American History, special attention being given to the forces which have shaped the Government of the United States and developed its present institutions.

Civil government of the United States.

## DEPARTMENT OF MUSIC

---

The aim of the department of music is to cultivate a taste for good music and to prepare the pupils for intelligent and appreciative work in the further pursuit of the art in its various branches.

The vocal and choral study includes vocalization, solfeggio, sight reading, dynamics, breath control, intonation, enunciation, unison and part singing.

The elementary theoretical work (required) aims to give the pupil a thorough foundation in the elements of music and includes rhythm, meter intervals, the derivation and construction of our present-day tonalities, major, all minor forms and chromatic scale in all keys, triads, chords of the dominant and diminished sevenths and cadences, leading to the study of

Harmony — elective, but strongly advised for all pupils in vocal or instrumental study.

Individual class work, one period weekly.

Vocal and choral work (entire school required), one period weekly.

## DEPARTMENT OF ART

---

The study of art must necessarily be considered as a whole rather than the work of different classes; therefore, the course in drawing is arranged to meet the needs of the individual student and is varied to suit any requirements.

Pupils are not only fitted for continuing their studies in advanced schools, but also to appreciate the best in art.

The general plan is as follows:

Freehand drawing of objects in pencil, and pen and ink, and principles of perspective.

Study of form, light and shade.

Study of design, applied decoration.

Study of color in waters and in oil.

Modeling and casting.

Mechanical drawing.

## SEWING

---

The course in sewing is given as an elective only in the senior year. The aim of the course therefore is an entirely practical one; namely to give a good understanding of hand-sewing, machine sewing and the use of commercial patterns.

The following gives an idea of the kind of work taken up during the year.

1. Sewing bag.
  - (a) Pincushion.
  - (b) Needlecase.
  - (c) Emery.
  - (d) Spool case.
2. Muslin sewing apron with lace and insertion.
3. Cotton chemise or combination.
4. Cotton nightgown or kimono.
5. Woolen dress.
6. Hand-knitted sweater.
7. Hemstitched towel with embroidered initial.
8. Silk shirt waist.
9. White dress skirt.
10. Summer dress.

REPORT OF SCHOOL COMMITTEE

## REPORT OF SCHOOL COMMITTEE

---

*To the Citizens of Quincy:*

We herewith submit to our fellow citizens the Annual Report of our Board for the year 1920.

The thought uppermost in our minds as we begin a brief review of the past year is that of the loss the City has sustained in the resignation of Mr. Albert L. Barbour, for eleven years our Superintendent, who has removed to another Massachusetts City. Haverhill is to be congratulated in acquiring the services of a Superintendent who has made an enviable reputation as a thorough business administrator and a progressive educator, and while the Committee has placed upon its records an appreciation of his worth we want here publicly to express our regret at his leaving Quincy, and to wish him continued success in his new field.

In electing as his successor Mr. F. H. Nickerson, the Committee confidentially believes that the high standards already set will be maintained, and that the new Superintendent will in his turn lead in all the progressive movements for which the Schools of Quincy have been noted.

The problems confronting your Committee at the beginning of this year have not all disappeared. The readjustment period has not relieved some of the complications brought about by the war. There has been, however, some reaction from the trend away from the teaching profession which threatened such disastrous results during the world conflagration.

Your Committee has we believe acted wisely in making repeated salary increases to our teachers, not only rewarding the faithful teachers thereby, but making more attractive the profession of teaching, and we hope encouraging more young people to take up normal training.

The new school house built by the Federal Government at Quincy Point is now occupied and affords relief to a badly congested district.

The High School situation has been given a great deal of study and we have sought expert advice from the office of the Commissioner of Education at the State House. The original scheme for an addition to our present building did not promise the accommodations needed, and considering the increasing problem in the Coddington district, the inadequate accommodations for our Home Making School, the inability to find suitable rooms for defective sight and continuation classes, and the meagre quarters occupied by the Industrial School it seemed that a new High School building housing all of these various groups was necessary, and that ample room for growth would best be secured. Under this plan an opportunity will be given for a Junior High School or an additional elementary school in the old High School building. The Committee has already recommended that the land at the corner of Coddington Street and Woodward Avenue adjoining the present Coddington School be taken by the City for this purpose. A completion of plans for a park and playground on land recently conveyed to the City beyond Woodward Avenue and the removal of the houses on Coddington Street including the present Home Making School would seem to make this lot well-nigh ideal for such a building.

The Industrial School is not being used to the extent that it should be in a City such as ours. We believe that better equipment in a well lighted, adequate building, would lead to a much larger attendance and be well worth while. We have also taken action looking toward the erection of an addition to school accommodations in the Massachusetts Fields district. This rapidly growing section should in our opinion have immediate attention in order to prevent serious overcrowding in the present building and in the Parker School.

The importance of the work done in various lines aside of the "three R's" should not be overlooked. There seems to be no end of opportunity for our school nurses and dentists to be of service and a large amount of essential work is being done by the faithful and conscientious directors of this health work. Results being shown in better school work as well as in the general condition of the children.

In the increasing Americanization work which has been energeti-

cally carried on we feel keenly the loss of Miss Shanahan who resigned to take a position elsewhere that afforded better opportunities.

We believe our entire school system is on the whole in excellent condition and ask your coöperation not only in maintaining it, but in giving the support which is essential to progress.

---

The foregoing report, presented by a special committee consisting of Mr. Charles W. Bailey and Dr. Daniel A. Bruce, was adopted as the Annual Report of the School Committee of 1920.

ALBERT L. BARBOUR,

*Secretary.*

## MARY E. DEARBORN

The School Board feels that it is fitting to place in this annual report a recognition of the long and unusual service rendered by Miss Mary E. Dearborn, who died in October of last year.

Born in 1844, in Auburn, N. H., of an ancestry dating back to early colonial times, her childhood education was largely derived from "sermons in stones, books in the running brooks" and having nature for a teacher in these early days, no doubt contributed largely to her broad and highly-developed moral, mental and physical character.

Miss Dearborn came to Quincy in September 1876, as a teacher in the Coddington School, and in 1880 became its principal, a position which she held until she retired in 1904. To be principal of a large school at any time calls for many and varied talents, but it was only an exceptional woman who could have met the many requirements, won the respect and confidence of the community and the affection of her pupils during the great "Renaissance of Education of the days of '76."

Coming to Quincy at such a critical time in our school history, she possessed the splendid pioneer qualities necessary to help introduce a new system of education at a time when changes in education were looked upon askance. She retained the best things of the old system, however, while willing and eager to accept the new.

"For such a time as this was Miss Dearborn born" said Col. Parker and his only criticism was, "that she worked too hard." Miss Dearborn was a born teacher and took the greatest pride and joy in that portion of her life spent in the Coddington School. Her teaching was a living thing, her methods were original and stimulating, she thought her profession the finest in the world and she never tired of it. Her influence on her pupils was felt in ways not laid down in the text-books, for she possessed in a remarkable degree the desire and the intuition to understand the individual needs of her pupils and looked quite as carefully after the morals

and manners and the dignified personal equipment of them as after their mental growth. She loved children without being mawkish about them and her scholars, grown men and women of today, look back with affection and gratitude to her teaching and her influence.

She was a skilled trainer of teachers, the wisdom of her methods being proved by the large number of her teachers who are now holding responsible positions. She felt it her duty to train and discipline them as well as her pupils and she did it with the same impartial thoroughness, sparing neither praise nor blame as the occasion demanded, but always loyally supporting the teacher in public.

As a woman, she was full of life, courage and vigor, broadminded, quick to discover and unveil shams, and to perceive the follies and frailties of human nature but slow to condemn and eager to aid people to better living.

Her quick wit, her wholesome outlook on life, her habit of making the best of things made her a delightful companion and to those nearest and dearest to her she was a tender, devoted and loyal friend.

She met the demands of teacher, friend and townswoman with patience, tact and rare good sense and the impress of her well rounded nature has been far reaching.

“Well done thou good and faithful servant.”

# REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

*Mrs. Arnold and Gentlemen:*

I submit herewith my twelfth annual report as Superintendent of Schools in this city, it being the forty-sixth in the series of such reports.

## FINANCES

The expenditures of the School Committee have been greatly in excess of those of preceding years for reasons which are easy of explanation. Practically every item that enters into the school budget has advanced steadily in price for the past five years. The increase in the costs of books and supplies has been especially noticeable. Fuel as is well known has more than doubled in price within two years and the latest increase in teachers' salaries has been no small item in the general expense.

Inasmuch as the conditions of the times have affected the personal budgets of the readers of this report in about the same proportion, this increased cost of school administration will occasion no surprise. Moreover, it should be understood that the increases in teachers' salaries granted for the year 1921 will further add to the per capita cost of education.

The increases in teachers' salaries are both well merited and absolutely essential if the city is to maintain in any degree permanency of tenure in its teaching corps. Adding to the force of teachers as we do each year, so many ambitious young teachers, it is useless to think that the city can retain their service with their added worth unless the city is willing to pay the market value for that service.

The willingness on the part of the Committee to raise steadily the maximum salary paid both principals and teachers is the wisest policy it possibly could pursue.

## SCHOOL ACCOMMODATIONS

The city is much better off in the way of school accommodations than it was at the time of writing the last school report. The opening of the new Government school, so called, though it has not yet been accepted by the city has relieved the almost intolerable conditions against which it was necessary to struggle last year.

It would be well worth while if the general public would visit and inspect this building because it embodies the very latest improvements in school architecture and gives a maximum of convenience, safety and comfort.

At the time the building was furnished, it seemed that if fourteen of the seventeen rooms were provided with furniture, the accommodations would be adequate for some years. As it proved, however, it became necessary to open the entire fourteen rooms at the beginning of the fall term and even then no rooms in the Webster or Washington Schools were left unoccupied.

The increase in school population this fall throughout the city was less than in preceding years and fairly evenly distributed.

Generally speaking, at the present time, the only point of real congestion is at Houghs Neck. The Coddington and the Willard districts will unquestionably require relief in a year or two and possibly the Massachusetts Fields section as well.

The High School situation is the most pressing at the present time and should receive the first attention of the School Committee during the coming year.

At first it seemed that an addition to the present building might be sufficient to solve the difficulty but other conditions were involved which compelled a broader view of the whole field.

The acceptance of the Continuation School Act by popular vote of the city election in December 1919, the general condition of the Industrial School building, the entire inadequacy of the Home Making School accommodations together with the general growth of the upper elementary grades called for a careful consideration of the whole situation. Were the city to build a wing on the present building as at first planned, it would still leave the Continuation School unprovided for, and no provision made for the

Industrial School, Home Making School or Junior High School extension.

Following a recommendation of your Superintendent that a new building be constructed on another site, Mr. Kingsley of the State Department of Education was invited to study the situation and make a report to the Committee. Mr. Kingsley very kindly consented to do so and advised the Committee not to enlarge the present building but to build instead on another site, a new building which should be a comprehensive High School. In this new building provision would be made for a Senior High School comprising the Sophomore, Junior and Senior classes, the Continuation School, the Home Making School and the Industrial School, each a separate unit but each responsible to one Head Master. On the erection and occupancy of such a building, the present High School would become the first Junior High School of the city, caring at first for all the present High School Freshmen. As other Junior High Schools were erected in other centers, gradually taking the 7th and 8th grades and Freshmen of those localities, this building would finally become the Junior High School for the central section of the city alone.

This proposal appealed to the School Committee as the logical solution of the high school problem and the Committee requested the City Council to purchase the lot of land on the corner of Coddington Street and Woodward Avenue for the erection of the new building and also took steps looking toward plans for the same. Though no progress has yet been made toward building, it becomes more and more evident that this building programme is an ideal one for solving several very pressing problems.

### SCHOOL WORK

The greatest hindrance to the type of school work that we should like to maintain in the schools of this city is the constant change of teachers, due in the main to the attraction of higher salaries in other cities.

For the past year or two our schools have been visited in increasing numbers by teachers and superintendents from other cities as well as normal school officials. Naturally we have been at the mercy of other communities able to pay much higher salaries and

have suffered accordingly. Unfortunately this is not a situation that can be relieved by an ordinary flat raise in salary to all teachers alike.

Some plan by which teachers of marked superiority may be retained in the system, irrespective of what the maximum may be, is the only method by which this constant drainage of the best teachers away from Quincy can be overcome.

During the year a large number of teachers took advantage of the provisions of the Rating and Promotion System, receiving credit for professional work done at various educational institutions in Boston and New York, adding thereby to the efficiency of the schools as well as to their salaries.

#### AMERICANIZATION

Remarkable progress has been made in the past year in the work of Americanization. Due largely to the untiring efforts and skill of Miss Josephine Shanahan, the supervisor, the number of classes increased in one year from 4 to 32; the enrollment from 112 to 893; the aggregate number of sessions from 82 to 561, while the cost to the city increased merely from \$1,051 to \$2,450.47.

This fall beside the classes that were in operation in the spring, classes were opened every afternoon in the week in the building of the Fore River Shipbuilding Corporation under the supervision and instruction of the public school authorities.

Several new classes have also been opened in the rooms of the Y. M. C. A. and the continuing classes have increased in numbers and interest.

It is worth while to record that at the request of the State Board of Education two classes were continued during the months of July and August in order to try out a new State Course of Study and at the same time give opportunity for observation of methods to students in the Harvard University Summer School who were interested in the Americanization problem.

The resignation of Miss Shanahan in the early fall to accept a similar position in a larger city is a severe loss to the community.

#### EVENING PRACTICAL ARTS

The rapid development of evening practical arts classes has paralleled the growth of Americanization work.

This fall more millinery and dressmaking classes have been opened than ever before. They are held in a number of the school buildings, in club houses and in churches on every day of the week and at all hours of the day.

The best proof of their success is their ever increasing numbers and the regular attendance maintained.

Only one class has been organized in cooking and none in home nursing.

The classes maintained for men reflect the dullness now existing in the shipbuilding industry. Because of fewer men employed, fewer men have registered for the classes offered and consequently only two evenings a week have been necessary to take care of them. The attendance at these classes as well as the number and variety of classes will always be dependent on the condition of business in the industrial establishments of the city.

### VOCATIONAL DAY SCHOOLS

Both the Industrial and the Home Making Schools have pursued the same paths as in previous years. There has been no change in enrolment or content of course of study. There has been the usual large number of changes in teachers but we have been fortunate in maintaining efficient service.

The construction of the new high school which will house both these units will, I predict, cause a very rapid growth in their attendance. Neither school is at present housed in a building adequate to its needs or worthy of the purpose for which it is used. There ought to be a far larger attendance at these schools than is at present the case.

During the present school year, Miss Elizabeth Douglas who has had charge of the Home Making School since its organization has been forced by illness to take a year's leave of absence. Miss Douglas has been a most efficient teacher and executive and we all wish for her a speedy and sure recovery.

### HIGH SCHOOL

Reference has already been made to the plans in view for the future High School. For the past year, it has been necessary

because of increased numbers to hold a two session plan and this must continue until a new building provides relief.

Notwithstanding these handicaps, the inward conduct and activities of the school have been most excellent.

There has never been a time when the record of the High School in preparing pupils for colleges or technical schools has been better than it is right now; never a time when more efficient work was done in its commercial, its manual arts and its household arts departments. In a word, the school shows the effect of wise management by its principal and capable instruction by its teachers.

The report of Mr. Collins, the Head Master of the School, is appended for your consideration.

MR. A. L. BARBOUR,

*Superintendent of Schools.*

I have the honor to present for your consideration a report from the High School for the past year. The first inquiry is always regarding the number of pupils in the school and comparative statistics for the last three years follow.

	1920	1919	1918
Whole number enrolled	1224	1112	1100
Whole number at date	1190	1023	1018

It will be seen from above figures that the enrollment this year is much larger than in preceding years and that the number of pupils who have left is very much smaller than in any preceding year. At the end of the half year in January, over two hundred more pupils will be added to the above numbers. I wish to call attention at the beginning of this report, to the fact that these numbers are being housed in a building which can accommodate 900 as a maximum at any one time. How this is being done was described briefly in my last annual report.

During the past year it has been possible to watch carefully the working of the double session plan and to judge rather accurately of its defects. Most parents are opposed to it and so are the pupils. In fact, not a few parents have refused to send their children to the High School under the present arrangement. It is

inconvenient for everyone concerned and presents real difficulties to all except those living within easy reach of the school building. The administration of the school, however, suffers most from this arrangement. It is necessary to have pupils coming and going throughout the day instead of at regular hours. This prevents us from keeping as careful watch of the pupils as is really required and gives them ample opportunity to be irregular in their attendance and in their conduct. It would be impossible for a corps of teachers of the size of our present force to maintain an administration anywhere near as efficient as it would be under a one-session plan.

Again, the constant use of rooms prevents the teachers from giving extra help to pupils as has been our custom and even seriously hampers the work of preparing pupils for college entrance examinations. There is no room for afternoon pupils until the morning pupils are out of the building and promptly at the close of the morning session the pupils must be driven out of the building in order that the afternoon pupils may have room for classes. The Continuation School had to be housed in our building and this makes more pupils in the building and requires two of our rooms in the afternoon. There is so little available room that it is necessary to arrange several days ahead for so simple a thing as a business meeting of a class.

Another problem arising from the conditions is that of repairs and keeping the building clean. Double use makes double wear and double dirt and at the same time very little opportunity is afforded for repairs or cleaning. The building is fast running down and it cannot be helped. More or less of the cleaning is being done in the evening but repairs cannot be made at that time and the few hours in the Saturday mornings are not enough to meet requirements. More extended use of the building is going to aggravate this situation and leave the building in much worse condition than it is at present.

The facts are that the building is not adequate for our present numbers and no plan can be devised which will make it so. The building has been outgrown in every way. Laboratories have had to be altered so that other classes may share the rooms, a class in stenography gathers around the gas stoves in the cooking room and a class in history meets in the sewing room. Worst of all, the

coat rooms located in a dark basement are not sufficient to take care of the pupils in either session and the toilet facilities are unspeakably bad. Indeed, we are at the limit of facilities beyond which it is impossible to go. Within a year if there is only a normal increase in numbers we shall be obliged to refuse admission to the school to some pupils, unless added accommodations are secured outside the school. This alarming condition is bound to come, anyway, because if a new building were started immediately nearly two years would elapse before it could be occupied. This state of affairs cannot be too strongly impressed on those whose duty it is to remedy the situation.

As a conclusion of the matter, I desire to say that it would be impossible to conduct the school under present conditions if it were not for the splendid spirit of the boys and girls, the efficiency and loyalty of the teachers and the extreme patience of the parents. These are all being pretty severely strained and I believe the pupils and teachers, particularly, have a right to enter a vigorous complaint against the conditions under which they are now having to perform their work.

This report has usually been for the purpose of noting progress in the school but now the opportunity for much progress is gone, until we can work with some degree of comfort and convenience. I make no apology for a report of this sort for I speak from a full heart.

For the friendliness and support we have had from the School Committee we are grateful and it is a source of deepest regret to us that we are not still to have your interest and help. Our best wishes go with you. To your successor, we shall show the same loyalty and coöperation that we have tried to give to you.

Respectfully submitted,

ERNEST L. COLLINS.

## CONCLUSION

In submitting this report, I conclude my service with the public school system of Quincy. After a service of nearly 12 years it is not an easy matter to part with tried and valued friends.

What the net result of my efforts have been in behalf of the schools it is not mine to say.

My service has, however, been unhampered in any way by political influence or personal selfishness on the part of citizens or Committee. There has been a manifest desire on the part of the community to support the Superintendent and his fellow workers in giving the children of the city the best educational facilities possible.

In doing the actual work of the schools, I have had the backing, coöperation and sympathy of most efficient supervisors, thoroughly competent and companionable masters and a teaching force of which any city should be proud.

All my school relations have been most congenial and the support which I have received on every hand, it is a duty and a pleasure to acknowledge.

Respectfully submitted,

ALBERT L. BARBOUR.

## QUINCY INDUSTRIAL SCHOOL

MR. ALBERT L. BARBOUR,

*Superintendent of Schools:*

It gives me pleasure to submit the ninth annual report of the Quincy Industrial School.

We have had enrolled during the year one hundred and seventeen pupils, distributed as follows:

Machine Department	38
Woodworking Department	30
Electrical Department	16
Sheet Metal Department	14
Plumbing Department	19
	—
Total	117

Our average enrollment has been	81.03
and average attendance	71.33

By taking advantage of the provisions of the "Caldwell Bill" we have added to the equipment of the Machine Department:

1 . . . . .	14" Pratt & Whitney Lathe
1 . . . . .	Rockford No. 1½ Plain Miller
1 . . . . .	Gavin No. 1½ Duplex Miller
1 . . . . .	LeBlonde No. 1 Plain Grinder

at an expense to the city of \$546.07 including delivery. The Government value placed on these machines was \$3,166.

We have converted the LeBlonde Plain Grinder into a Universal Grinder at the expense of \$231.90. We also made for our own use a two wheel emery grinder.

We were fortunate in securing from the Boston Gear Works quite a little work of the type desired for our Machine Shop which worked to our advantage in three ways, giving us work, no outlay for stock, and with a money return to the school.

During the school year we have completed jobs for the various schools of the city to the value of \$3,997.11 and have received cash for our products to the amount of \$950.49.

On April 19th a fire broke out in the Woodworking Department probably caused by defective wiring. The fire department succeeded in confining it to the side in which it started and we wish to express our thanks to them at this time as we feel sure that only their prompt and energetic efforts prevented the total destruction of the building. The pupils of the school made the larger part of the repairs and money received from insurance replaced the tools destroyed.

The work of the school was but little delayed and at the present time things are in better shape than before the fire.

Respectfully submitted,

E. P. BARROWS,

*Director.*

#### HOME MAKING SCHOOL

MR. ALBERT L. BARBOUR,

*Superintendent of Schools:*

I submit with pleasure the report of the Day Home Making School for the year 1920.

The year opened with twenty-five pupils enrolled. The entrance of the February class from the grades made this number thirty-one.

The work went forward very successfully, teachers and pupils working together toward a common end — the advancement of each individual pupil and the welfare of the school in general.

In June our graduating class numbered seven — each girl one we shall be proud to have representing our school in the years to come.

Miss Alice Keane, instructor in millinery, left our teaching force at the close of the school year in June. Miss Ellen Walls resigned early in the summer to take a position in the Brockton High School. Later, Miss Miriam Chapman resigned and when school was about to begin in September, Miss Elizabeth Douglas became so ill as to necessitate her asking for a year's leave of absence. In the resignation of the instructors the school suffered a loss. The temporary

absence of the Director is greatly felt by all interested in the school. We sincerely hope for her recovery and restoration to the position where her work meant so much to all with whom she came in contact.

Mrs. Louise Beckwith of Saugus, Mass., was appointed instructor in sewing. Miss Harriet McLucas, who was in charge of the Non-Vocational work for a part of the year 1917-1918, came back to us in the capacity of instructor in the cooking department. Miss Anna Maguire is instructor in millinery. Mrs. Jennie Peterson taught the non-vocational work until Thanksgiving when Miss Verna Clarke was appointed to fill the position permanently. It is owing to the efficiency of these teachers that the work of the school has not been hurt by the great change in the corps.

The school this fall has numbered twenty-eight. The girls enrolled are splendid material for ideal home-makers. They are showing repeatedly their interest in their work and their desire to advance.

This report would not be complete without a word to express our regret at the loss of our Superintendent who has always shown his strong interest in the school by his hearty support at all times.

We hope that his successor will accord his aid in carrying on this line of work which more and more is coming to the front in educational circles.

Respectfully submitted,

ADA M. WINCHENBAUGH,

*Acting Director.*

#### CONTINUATION SCHOOL

MR. ALBERT L. BARBOUR,

*Superintendent of Schools:*

Herewith I submit the first annual report of the Quincy Continuation School.

Up to January 1st, 1921, we have enrolled one hundred and four boys, of whom twenty-seven have been discharged, and thirty-

seven girls, five of whom have been discharged. Of the boys who have left, fifteen became sixteen years of age, ten secured work in other towns or cities, one moved away, one left whom we could not follow up and one returned to the regular day school. Three of the five girls discharged were sixteen years old, one moved away and one returned to the regular school.

Owing to the fact that the school is located in the High School building where the congestion will not allow the installation of proper equipment, the work in the boys' department has been confined to the study of academic subjects only. This work has been quite successful in its aim — that is, to give the pupil general improvement — but the type of pupil demands a certain amount of manual work. One-half of the pupil's time in Continuation School is not too much to give to this kind of work in my opinion. The institution of some practical arts training would result in much greater success in the boys' work.

For the girls, we have been exceedingly fortunate in securing the use of the High School cooking laboratory and the services of Miss Julia Leamy of the High School faculty on Wednesday afternoons. We are thus able to combine two hours academic work with two hours sewing or cooking, an arrangement greatly desired by the State authorities. This work has been particularly successful, thanks to the efforts of Miss Leamy and Mrs. Palmer who has charge of the academic work.

The recent business depression has resulted in the unemployment of many Quincy children who have been working in nearby cities and towns and who are thus returned to our jurisdiction and required to attend this school twenty hours per week. By the first of December, the number of boys had increased sufficiently to necessitate securing a teacher for them. Mr. Arthur L. Russell took up this work on December 6th and thus far has been making the best of a very difficult situation. The only room available for this work is not suitable from the standpoint of size, seating arrangement or opportunity for giving the sort of work which is necessary for the successful teaching of this type of boy.

On account of the follow-up work which brings the teacher into close connection with the home and the pupil's place of employment, we feel that we are establishing a fairly good feeling between

the home and the school, and a reasonable amount of coöperation between the industries of the city and the school.

For next year, I should recommend the securing of more room and the installation of some practical arts equipment for the boys' work, matters which I feel are of vital importance to the success of the school.

Respectfully submitted,

HARLAN L. HARRINGTON,

*Director.*

#### AMERICANIZATION CLASSES

MR. ALBERT L. BARBOUR,

*Superintendent of Schools:*

Since I have had charge of the Americanization work in Quincy only since November last, my report will be largely a statement of purposes rather than a review of accomplishments.

Thirty-two classes, with a total enrollment of 893, including beginners, intermediate and citizenship classes, held in factory, homes and evening schools, are being conducted by the department.

All the teachers of the classes are selected from those employed in the day schools with the exception of one and she is an ex-teacher.

Our aims are as follows:— to have every teacher employed in this particular work hold a State certificate in Americanization; to establish classes in all the industries where non-English speaking people are employed; to provide more home classes for mothers; to coöperate with all agencies in the city in giving our foreign-born friends a chance to learn to speak, read, and write the English language; to interpret America to them in all its phases, emphasizing the opportunities and obligations of American citizenship and arousing in them a desire to participate in and contribute to the benefits of our democratic institution.

Respectfully submitted,

NELLIE A. PERRY,

*Supervisor.*

# SUMMARIZED REPORT OF THE SCHOOL NURSES

January 1 to December 31, 1920

Cases examined for various causes . . . . .	19,336
Home calls made . . . . .	1,544
Cases referred to school physician . . . . .	682
Cases taken to eye and ear clinics . . . . .	340
Cases of corrected vision . . . . .	113
Cases referred to various other clinics . . . . .	106
Operations for tonsils and adenoids . . . . .	100
Cases of contagion found . . . . .	271

## REPORT OF DENTAL CLINICS

January 1 to December 31, 1920

Number of patients registered . . . . .	4,483
Number of new patients . . . . .	756
Number of patients completed . . . . .	768
Number of visits . . . . .	6,387

### FILLINGS

Number of amalgam fillings . . . . .	2,075
Number of cement fillings . . . . .	2,034
Number of synthetic fillings . . . . .	405
Number of temporary cement fillings . . . . .	1,026
Number of temporary stoppings . . . . .	360
Number of treatments . . . . .	1,229

### EXTRACTIONS

Number of permanent teeth extracted . . . . .	639
Number of temporary teeth extracted . . . . .	2,631

### CLEANINGS

Number of patients' teeth cleaned . . . . .	981
Total number of operations . . . . .	11,380

The Daniel Webster School Clinic included in above was not opened until March 9th.

## ELEMENTARY SCHOOLS

January 23, 1920

### ADAMS SCHOOL — 24

Priscilla Alden Bartlett  
Wendell W. Bishop  
Florence I. Black  
Leo F. Ciardelli  
Leonora A. Colombo  
Marion L. Davidson  
Alfred A. Diack  
Nellie Elder  
Elvira Y. Firmani  
John V. Ghigli  
Alice O. Gray  
Dorothy Quincy Hall

William G. Hathorne  
Wendell R. Hobart  
Mary Kennedy  
Kenneth G. MacLean  
George A. Macwilliam  
William A. McCausland  
C. Russell Milford  
Thomas H. Parsons  
Arthur F. Pinel  
Charles Neil Ross  
Eugene B. Ross  
C. Marcia Van Stry

### ATHERTON SCHOOL — 9

Verda Edith Benn  
Merle Joseph Gardner  
William George Guyette  
George Robert Mowbray

Laura Isabel Piper  
Mary Perry  
Robert Page  
Margaret Evelyn Riordan  
Gerald Walsh

### CODDINGTON SCHOOL — 17

Bertram Wilson Barrows  
Mable Eva A. Belyea  
Herbert Charles Best  
Madelyn May Bordon  
Marion Henrietta Brown  
John Thomas Daly  
Carl Franklyn Dennis  
Mildred Pratt Fitts

Signe Gunhild M. Anderson  
Adelaide Katherine Freitas  
Priscilla Knutsford Griswold  
John Francis Kelly  
John Frederick Ketterer  
Viola Margaret MacArthur  
Edith Franklin Miller  
Carl Peterson  
Franklin Melvin Smith

### CRANCH SCHOOL — 18

Mildred Estelle Abbott  
Fritjof Anderson  
Lester Herbert Blake  
Lowell Eric Victor Carlson  
Helen Linnea Cedarstrom  
Arthur Christie  
Grace Frances Rita Corbett  
Agnes Matilda Gustafson  
George Robsham Isaacsen

Carl Wilbert Richard Johnson  
John Emil Lindholm  
Alfhild Ingrid Charlotte Nelson  
Anna Linnea Elizabeth Olson  
Ethel May Reilly  
Helen Esther Stone  
Gertrude Lucia Svard  
Herbert Alfred Tucker  
Alvin Arthur Alexander Weidman

### DANIEL WEBSTER SCHOOL — 16

Nathan Benjamin Berman  
 Samuel Chella  
 Pauline Coffman  
 Ronald Munro Cooke  
 Thomas White Donlin  
 Ralph Lester Gaudet  
 Beatrice Mae Gibbs  
 William Mason Ladd

Sylvester Levinson  
 Ella Mathilda Lundberg  
 Beatrice Mildred Marnock  
 Grace Vivian Oliver  
 Eleanor Miriam Poulin  
 Marjorie Sidelinger  
 Raymond Field Stoddard  
 William Vaszkis

### FRANCIS W. PARKER SCHOOL — 25

Shirley F. Bailey  
 Dorothy Berwick  
 Bernard M. Bradley  
 Morton Cleale, Jr.  
 Curtis R. Crowell  
 Marion I. Curran  
 Catharine F. Donovan  
 George Douse  
 Corinne E. Edwards  
 Clara L. Faulkner  
 Florence A. Ferguson  
 Frank E. Gould  
 Mary F. J. Habelt  
 Edith A. Holmberg

S. Evelyn Houghton  
 Theodore Kappler  
 Richard R. Ketchum  
 Mildred M. Linnell  
 R. Joseph McDonald  
 James P. McTear  
 Ruth M. Mitchell  
 Rita V. Neal  
 Edwin S. Nealley  
 J. Richard Ross  
 Herbert G. Sadlier  
 Francis H. Smith  
 Mildred A. Thompson  
 Frederick J. Wildanger

### GRIDLEY BRYANT SCHOOL — 3

Edward Thomas Doyle

Margaret Frances Morrison  
 Edward Joseph Mullin

### JOHN HANCOCK SCHOOL — 14

Israel Isaac Clayman  
 Edith Caroline Ekroth  
 John William Imlay  
 Jacob Edwin Jacobson  
 Annabell Dorothy Kerr  
 Annie Lubarsky  
 Mildred Elizabeth MacDonald

John Ellsworth MacKenzie  
 Alec Dan MacLeod  
 Arthur Young Munro  
 William Palmer  
 James Bernard Riley  
 Charles Irving Stoddard  
 Wilho Minio Tuori

### LINCOLN SCHOOL — 15

Ermanno Antonio Basilio  
 Annie Mary Bertolami  
 Hazel Isabell Bissett  
 Edna May Brault  
 Hughena Margaret Dawson  
 Olga Virginia Della Chiesa  
 Mary Giarrusso

Nellie Harvester  
 David Ernest Inman  
 Helen Elizabeth Laitine  
 Arthur Menchi  
 Mildred Anna Ratte  
 James Royal Smith  
 Armando Santo Tangherlini

Lauri William Ulvila

### MONTCLAIR SCHOOL — 16

Harry J. Blanchet  
 Madeline C. Donahue  
 Charles P. Duggan  
 Ralph W. Fitch  
 Charlotte M. Fox  
 Leo J. Hannon  
 Mary J. Landry  
 Thomas H. McGrath

Elizabeth M. Melanson  
 Phyllis E. Mosman  
 Inez E. Parlee  
 Frank B. Pinard  
 Flora M. Ross  
 Anna E. Seller  
 Verge S. Wagner  
 Clara C. Zottoli

### QUINCY SCHOOL — 17

Edith M. Alden  
Harold M. Armitstead  
Magdalene E. Bamford  
G. Leroy Chapman  
Harriet Dixon  
John J. Donovan  
Alfred D. Houston  
Frank P. Leavitt

Harold F. Leeco  
Margaret F. O'Connell  
Dorothy I. Packard  
William R. Peacock  
Margaret M. Reardon  
James J. Shea  
Edna M. Smith  
Elizabeth M. Smith

George D. Strout

### SQUANTUM SCHOOL — 2

W. Holga Gran

Harold R. Mason

### WASHINGTON SCHOOL — 19

Arnold Anderson  
Isobel Angus  
Dorothy Bruton  
Nathan Coffman  
Irvin Coughlin  
Arthur Davies  
Everett Harvey  
Oscar Johnson  
Marion Kimball

Ernest Francis McDonnell  
Ruth Martin  
Louis Miller  
Henry Pippy  
Eli Richman  
Mary Ross  
Katherine Smith  
Margaret Smith  
Lawrence Smythe

Alta White

### WILLARD SCHOOL — 27

Agnes Catherine Boudrow  
William Joseph Cashman  
John Francis Connor  
Mark Ambrose Doyle  
Anestasia Eovacious  
Tyyne Forslund  
Helen Patricia Fraser  
Dagmar Marie Gustafson  
Mary Theresa Hart  
Waino Hervimaki  
Viena Tellervo Johnson  
Francis Joseph Keegan  
William Patrick Killoh

Karl Kontio  
Aili Josephine Kujala  
Joseph Dennis Mahoney  
Cecelia Ellen Mattson  
Nora Mary Mullarkey  
Aili Puskala  
Ada Mary Quintiliani  
Pauline Jane Roberge  
Theodore Joseph Rouillard  
Toivo Henry Savonen  
Helen Veronica Shea  
Nora Agnes Sullivan  
Frank Jacob Wainionpaa

Gladys Louise Walsh

### WOLLASTON SCHOOL — 31

Angie Gertrude Austin  
Eleanor Vining Bates  
Lucille Elizabeth Belcher  
Robert Ambrose Breen  
George Harold Cahill  
Sarah Thorne Couch  
Blanche Carrington Cutler  
Eleanor Eastman  
Maria Greig Edmonston  
Warren Mansfield Ford  
Gilbert Theodore Hamilton  
Velma Elena Herrick  
Ione Angeline Higgins  
Helen Katherine Jepsen  
Louise Helen MacAdams

Rosamond Frances Millard  
Ernest Bertrum Neal, Jr.  
Marion Osgood  
Evelyn Edith Potts  
Hazel Eleanor Ruggles  
Earle Lorenz Shultz  
Margaret Dorothy Shultz  
Alice Loraine Stedman  
Stanwood Chandler Sweetser  
William Lawrence Tabb  
Harry Ashley Tabor, Jr.  
Priscilla Azuba Temple  
James Wilbur Troy  
Leslie Howard Van Raalte  
Katharine Wellington

John Elmer Wright

# CLASS OF 1920

QUINCY HIGH SCHOOL, WEDNESDAY, JUNE 23

Ruth J. Abbiatti  
 Evron Marie Anderson  
 Mildred J. Anderson  
 Mabel Lois Archibald  
 Mildred A. Atwood  
 Margaret Barber  
 Harriot Buxton Barbour

## ELEMENTARY SCHOOLS

June, 1920

### ADAMS SCHOOL — 11

Audrey Louise Butler	Catharine E. MacPherson
Marion Eloise Daly	Edward J. Marnock
Ethel M. Ericson	Florence E. Martin
Joseph P. Giordani	Ventrice Overlock
Annie F. MacKenzie	Dorothy A. Raleigh
William Richmond Tarbox	

### ATHERTON HOUGH SCHOOL — 19

Hazel Louise Bearse	Ruth Margaret Mahoney
*Ernest J. Choquette	Getta Agnes Mills
Lillian May Coron	Beatrice Lillian Norling
Edna May Craggs	William T. Lehto
John Joseph Crowley	Elsa Elizabeth Palmquist
Harold Francis Cahoon	Temple Sylvester Pinkham
Alma Melissa Dyer	Edward C. Riordan
Ethel Lillian Dyer	Robert Norman Sampson
Florence Geraldine Hanson	Theodore Schragle
George Gingee Kilnapp	

### CODDINGTON SCHOOL — 47

Marjorie Natalie Adams	Margaret Kemp Heselton
Mary Frances Alward	Eleanor Horton
Samuel Feltis Baker	Dorothy May Johnson
Dorothy Lucile Bent	Marie Alice Jones
Gustaf Stanley Blomquist	Doris Kincaide
Bessie May Butler	Frances Elizabeth Knowlton
Evald Eugene Carlson	Miriam Fairbrother Macdonald
Francis Patrick Chiminiello	Philip Webber Murphy
Florence Charlotte Cormack	Clarence Bentley Nickerson
Barbara Helen Coy	Ernest George Paige
Annunziata DeNicola	Arthur Leonard Pearson
Louise Elizabeth Dovell	Madaliena Perrotta Pecce
Paul Hunting Dovell	Myron Wilbourn Ryder
Viola May Dunkerley	Francis Oliver Smith
Francis Timothy Egan	Elinor Parker Spear
Preston Carleton Ela	Ruby Dow Townsend
Edna Josephine Ellis	Kathrine Leshner Vannatta
Harriet May Folsom	Constance Mary Ward
Charles Edward Fostello	Richard George Ward
Winifred Ruth Fritz	Willis Harold Wardwell
Irene Florence Gillis	Minnie Morton Whiton
Stella Augusta Gullicksen	Edward Carl Willing
William Kenneth Hammond	Howard Charles Wickens
Virginia Margaret Wood	

### CRANCH SCHOOL — 28

Edna Florence Acker	Alice Rita Barry
William Frederick Allison	Enid Clara Bradford

\* Deceased

Anna Morton Breslyn  
 Andrew Clarence Carlson  
 Anna Greta Carlson  
 Velma Louise Crotty  
 Beatrice Elizabeth Estabrook  
 Ralph Robert Forsman  
 Clarence Waldemer Funke  
 Delores Lucian Gelinaz  
 Evelyn Frances Genero  
 Elinor Frances Hill  
 Ervin Atkins Hinds  
 Theodore William Holmgren
